GENERAL ASSEMBLY FINISHES ITS WORK PASSING 223 BILLS

Bill Increasing Gas Tax
To Four Cents Is
Passed

COOPER BILLS WIN

Appropriations Set New
High Record For
Legislature

COLUMBUS, O., April 8.—The legislative halls were empty today. The tumult was over. Wrangling had ceased and the eighty-eighth general assembly had passed into history.

The assembly brought its work to a close early Sunday morning after enacting more than 200 laws, repealing a few, liberalizing some and modifying others.

Assembly officers and a few members will return April 16 to complete the perfunctory formality of adjourning sine die, but the actual legislative work is at an end.

During the interim between now and April 16, legislative clerks will complete their work, gathering together loose ends that must wait until the law-makers have returned to their homes.

There is an old axiom that all legislatures "are good and bad," some worse than others. Leaders of the eighty-eighth assembly, and the administration, are highly satisfied with their work, however.

For three months the law-makers moved cautiously, enacting laws remedial in nature, correcting errors in existing measures and liberalizing others which were antiquated.

The most important measure before the solons—the Sullivan-Bostwick bill increasing the state gasoline tax one cent from three to four cents a gallon—was one of the last bills passed.

It had the endorsement of Governor Myers, Y. Cooper and administration leaders and demonstrated, in enactment, that harmony could be brought out of chaos.

For the first time in years the legislature was almost solidly Republican and it worked with almost clock-like precision, in harmony with the governor and his aides.

The assembly passed all of the measures the governor favored, with one minor exception and this bill carried only "unofficial endorsement."

Among the bills killed, despite vigorous efforts made to put them through, were:

The "Bible bill," backed by the Ku Klux Klan; the ten per cent cigarette sales tax; the anti-malt measure; the so-called "highway police" or constabulary bill; the automobile drivers' license bill; the "chain-store" tax measure; a bill to increase the salary of legislators; and the Ackerman bill for a state athletic commission.

The Runner bill, to prohibit school teachers from smoking cigarettes; the Johnson bill for censorship of the "talkies"; the Rowe bill, requiring hunters to wear license tags on their backs; a bill for sterilization of mental defectives; the "initiated" bill to give chiropractors their own state examining and licensing board; and the Sims bill, to permit physicians to prescribe a pint of whiskey every ten days for the sick or aged, instead of a half-pint.

The barbers' license bill; the "teachers' tenure" bill; the "old age pension" bill; the so-called "yellow dog" bill, to prohibit enforcement of open shop labor contracts; and bills requiring architects and short-hand reporters to be licensed.

The assembly enacted a total of 223 measures. The 1927 legislature enacted 172 measures and the 1925 legislature 224.

The new acts include the entire officially announced program of Governor Cooper. These were:

1. The four-cent gasoline tax, which adds \$8,500,000 to the tax burden of the Ohio motorists and raises to \$33,500,000 the total the motorists will pay annually in fuel taxes.

2. The Carpenter bill, repealing the Pence law under which utilities have been able to collect increased rates under bond before the rates were authorized by the utilities commission.

3. The Bender act, reducing the

XENIA'S MUNICIPAL COURT BILL PASSES OHIO LEGISLATURE

First Candidate Is Out;
E. D. Smith's Hat
In Ring

A municipal court for Xenia was created by the state legislature at its closing session Saturday.

The senate followed the action of the house and unanimously passed the municipal court bill sponsored by Rep. R. D. Williamson, Greene County. The bill is now ready for Governor Cooper's signature.

The court will begin to function January 1, 1930, and voters of Xenia will elect a judge for the court for a four-year term at the coming November election.

Creation of the new court automatically abolishes the present mayor's court and the two Xenia Twp. justice of the peace courts.

Minimums of \$1,350 from the city and \$450 from Greene County will constitute the salary of the municipal judge.

The new court will have jurisdiction over misdemeanors, ordinance violations and civil suits involving less than \$1,000. Four regular sessions will be held, beginning the first of January, April, July and October.

The city auditor will become clerk of the court, ex officio, by the terms of the bill. Municipal jurors will be paid either \$2 or \$1 a day, depending on whether the case involves more or less than \$200.

The first candidate to toss his hat in the ring for the judgeship of the new court is Attorney E. Dawson Smith, this city, Democrat, who was judge of the old police court in Xenia during the eight years of its existence.

Judge Smith presided over the old tribunal from the date of its creation, January 1, 1915, until it was ruled unconstitutional by the Ohio Supreme Court and replaced by the present mayor's court eight years later.

Judge Smith formally announced his candidacy for the position Monday.

NORWAY CONSULATE PROTESTS SHOTS AT NORWEGIAN VESSEL

Coast Guard Fires On
Ship; Hunts For
Liquor

BALTIMORE, Md., April 8.—Alleged "high handed and dangerous" methods used by the coast guard patrol boat 189 in calling on the Norwegian fruit ship Juan to leave for search in Chesapeake Bay are described in a report of the matter forwarded to the Norwegian minister at Washington by the Baltimore Norwegian consulate.

The report says six shots were fired by the patrol boat, the last shot coming after the Juan had swung about to await the approach of the government boat. The ship, the report says, was searched by two guard officers, who on board said they suspected the ship of carrying liquor.

The report was based on a deposition made by Paul E. Kesterson, pilot to Charles C. Schroeder, secretary to the Norwegian vice-consul here. Kesterson expressed great indignation at the incident. He boarded the ship outside the capes at 7 a. m. Friday, he said, for the purpose of piloting her into Baltimore. It was several hours later that the incident took place.

The first shots, he said, were supposed by those on the bridge to be target practice off Cape Henry but when the scream of a shell sounded near them, they swung about, sounding three short blasts of warning on the ship's whistle.

He told Schroeder two of the guardsmen searched the ship but found no illegal liquor, the only alcoholics on board being in the medicine chest.

Kesterson expressed surprise the coast guard used the cannon for signals, pointing out there were several opportunities for her to hail the Juan, the ships once having been within voice hailing distance. Also, he said, both ships were equipped with radio which might have been used.

PROHIBITION HOLDS PROMINENT PLACE IN CAPITAL ACTIVITIES

Michaelson Denies Guilt;
Probe Of Negro
Vote Asked

WASHINGTON, April 8.—Prohibition occupied a prominent place in Washington activities over the week end.

Statements, radio speeches and a letter to the president on the subject were used as mediums for arguments put forward by both wet and dry forces.

The attention of the public was called to:

1. A denial by Rep. Michaelson of Chicago of charges which led to an indictment for alleged liquor smuggling.

2. A letter to President Hoover by Rep. Tinkham, Republican, Massachusetts, asking particularly an investigation of the fourteenth and fifteenth amendments as well as the eighteenth.

3. A statement by Henry H. Curran, president of the association against the prohibition amendment criticizing the report of Assistant Secretary of the Treasury Lowman on prohibition incidents in which persons were shot.

4. A radio address by Attorney General Mitchell in which he outlined plans of the Hoover administration for federal law enforcement improvements.

5. A radio address by Senator Capper, Republican, Kansas, in which he urged general law observance.

Michaelson's denial was in the form of a telegram to newspapers. In it he denied there was liquor of any kind in his baggage from the time it left Cuba until it reached his destination in the United States. He did not deny specifically in the message there was no liquor in his baggage at Jacksonville where the indictment against him was obtained. Michaelson has refused to discuss that angle of his case.

In a letter to President Hoover demanding investigation by the president's crime commission of the enforcement of the fourteenth

FIFTH CONVICT IN M'DERMOTT PRISON BREAK IS CAPTURED

James Walton Held After
Gun Duel In Philadelphia

OHIO STATE PENITENTIARY, Columbus, April 8.—Warden P. E. Thomas was formally notified today that James Walton, who led a sensational break from the prison February 19, had been captured in Philadelphia after a gun battle with detectives.

Walton was shot in the legs after he and a companion attempted to flee from detectives who approached them in a Philadelphia park. He was removed to a hospital and placed under guard.

Walton was said to have confessed his identity when doctors told him there was no hope for his recovery. He will be brought to the prison here as soon as he recuperates.

Walton broke out of the penitentiary with Pat McDermott, triggerman in the assassination of Don R. Mellett, editor of the Cincinnati Daily News, and three other convicts. Walton was the only one who evaded capture.

After Walton was shot, Warden Thomas said, he attempted to shoot the detectives from where he lay. They leaped upon him and subdued him.

Walton was admitted to the prison on Dec. 23, 1927, from Cleveland, to serve 10 to 25 years for robbery.

He was shot in the legs after he and a companion attempted to flee from detectives who approached them in a Philadelphia park. He was removed to a hospital and placed under guard.

BOMB SENT TO ROOSEVELT IS INTERCEPTED

Porter Discovers Dynamite
Sent To Governor

NEW YORK, April 8.—Because of the vigilance of a porter at the general post office, Governor Franklin D. Roosevelt has been saved from possible injury or death from a dynamite bomb.

A short time after the bomb was discovered, the \$100,000 home of Roosevelt's son-in-law, C. B. Dall, near Tarrytown, N. Y., was destroyed by fire.

While police believed the blaze was of incendiary origin, they said they had found no evidence that the bomb and the fire were part of the same plot against the Roosevelt family.

Thomas J. Callegy, a porter, was sweeping out yesterday when he heard a hissing sound in a pile of packages. He bent over and saw smoke trickling out of a parcel wrapped in brown paper. Callegy kicked the package. The noise ceased and the smoke stopped.

He housed the parcel in a bucket of water and called postoffice officials.

When Inspector James Callahan, an expert on infernal machines, arrived and cautiously opened the package he found a one-pound, tin candy box, and inside of that a four-inch piece of pipe sealed at each end with wax. The pipe, he said, was loaded with dynamite.

The fuse and detonator were attached to four matches, arranged to ignite on paper when the lid of the box was lifted.

The package was addressed: "Hon. F. D. Roosevelt, Mansion House, Albany, N. Y."

Detectives pointed out that when Callegy kicked the box he snapped the fuse, which apparently had become ignited by friction between the matches in the box.

The return address on the box, yielded no disclosures to the identity of the sender.

ALBANY, N. Y., April 8.—The attempt to mail a bomb to Governor Franklin D. Roosevelt is the second such experience he has had in public life.

When Roosevelt was assistant secretary of the navy in President Wilson's cabinet, a bomb was mailed to him during the World War, but was discovered before it reached him.

The governor returned last night from his home in Hyde Park where he spent the week end and apparently was unworried by the incident.

Now to add to the distress of the official matrons comes fearful words from the lips of Mrs. Emily Post, arbiter of social etiquette, who declares it is "social death" to blunder in the important manner of arranging place cards at a dinner party in Washington.

She further asserts that precedence, "the bane of the Washington hostesses," is as "difficult as a cryptogram" to solve.

Wherever the Hoovers are being entertained, they naturally are the guests of honor except in event that visiting foreign sovereigns or presidents are present. Then comes the vice president, followed by the various ambassadors in the order that they have been appointed to Washington. Then the chief justice. If the president is present

AN EXPERT SPEAKS

Mrs. Emily Post, Dictator Of Social Etiquette,
Passes Buck To Stimson

Left, Mrs. Edward E. Gann; right, Mrs. Emily Post and Vice President Curtis.

By BONITA WITT
Staff Writer for Central Press and
The Gazette

WASHINGTON, April 8.—Ever since Vice President Curtis ascended the state department by personally requesting that his sister and official hostess, Mrs. Edward E. Gann, be given equal seating with him on dinner party seating lists given out by them, Washington hostesses have been seriously upset.

Should they risk the vice president's displeasure by seating his sister below the foreign ambassadors and ministers, as decreed by Secretary of State Frank B. Kellogg before he retired, or accord her the same rating extended the wife of the vice president?

Now to add to the distress of the official matrons comes fearful words from the lips of Mrs. Emily Post, arbiter of social etiquette, who declares it is "social death" to blunder in the important manner of arranging place cards at a dinner party in Washington.

MEXICAN FEDERALS ATTEMPTING TO PEN REBELS IN SONORA

Revolters Evacuate Chihuahua In Face Of
Attacks

PROTECT AMERICANS

Naco Seige Ends; Tourists Seeking Souvenirs In City

By United Press

While eighteen United States army airplanes patrolled the Arizona border today to protect American lives and property, Mexican federal troops were relentlessly driving the rebel forces into a cul-de-sac in the state of Sonora, where they would be forced to fight or surrender.

Sonora is bounded on the north by Arizona. On the east is Chihuahua, through which Juan A. Almazan, federal commander, was advancing steadily. On the west is the Gulf of California. On the south is Sinaloa, where the rebel forces of General Francisco Manzo and Gen. Roberto Cruz, repulsed from Mazatlan, were retreating northward toward Sonora, closely pursued by federal troops.

Gen. J. Gonzalo Escobar, rebel commander-in-chief, was being driven northward through Chihuahua towards Sonora by Almazan's forces. The rebels were reported to be evacuating Chihuahua City.

Meanwhile, the strong rebel force under Gen. Fausto Topete which attacked Naco, Sonora, on the Arizona border, had been repulsed and was retreating southward. It was considered most likely that Topete would attempt a junction with the forces of Escobar, Manzo and Cruz, and that the three rebel divisions would make a last stand in Sonora.

General William B. Lassiter, U. S. army commander at San Antonio, has been given orders from Washington to take whatever means he deems necessary to protect American lives and property, as an aftermath of the border incidents in which Americans were wounded and a bomb dropped by rebel airmen in Naco, Arizona.

The arrival of the eighteen U. S. planes was considered far warning that the American side of the line would be protected against further violence.

NACO, Ariz., April 8.—Naco resumed its normal routine of life today, the Mexican revolution over so far as it's concerned.

The battle of musketry and crash of aerial bombs had given way to the tiny music of electric pianos and jangle of cash registers after rebel forces lifted the siege of the beleaguered Mexican town across the line.

Hundreds of American tourists were permitted to enter the battle area yesterday and today only a remnant of the souvenir hunters and boarded up windows gave any indication that revolution ever existed in this sector.

Having routed two rebel assaults, the federal garrison of Naco, Sonora, took a breathing spell while inspectors under General Fausto Topete retreated southward, leaving behind stragglers and much equipment.

Advices indicated Topete had two reasons for his retreat, one the defeat of his forces Saturday and the other because of reverses suffered by Generalissimo J. G. Escobar in Chihuahua. One report was that Topete had been ordered to rejoin the command of General Francisco Manzo, who attempted unsuccessfully to capture Mazatlan on the west coast.

Statements, radio speeches and a letter to the president on the subject were used as mediums for arguments put forward by both wet and dry forces.

The attention of the public was called to:

1. A denial by Rep. Michaelson of Chicago of charges which led to an indictment for alleged liquor smuggling.

2. A letter to President Hoover by Rep. Tinkham, Republican, Massachusetts, asking particularly an investigation of the fourteenth and fifteenth amendments as well as the eighteenth.

3. A statement by Henry H. Curran, president of the association against the prohibition amendment criticizing the report of Assistant Secretary of the Treasury Lowman on prohibition incidents in which persons were shot.

4. A radio address by Attorney General Mitchell in which he outlined plans of the Hoover administration for federal law enforcement improvements.

5. A radio address by Senator Capper, Republican, Kansas, in which he urged general law observance.

Michaelson's denial was in the form of a telegram to newspapers. In it he denied there was liquor of any kind in his baggage from the time it left Cuba until it reached his destination in the United States. He did not deny specifically in the message there was no liquor in his baggage at Jacksonville where the indictment against him was obtained. Michaelson has refused to discuss that angle of his case.

In a letter to President Hoover demanding investigation by the president's crime commission of the enforcement of the fourteenth

FIFTH CONVICT IN M'DERMOTT PRISON BREAK IS CAPTURED

James Walton Held After
Gun Duel In Philadelphia

OHIO STATE PENITENTIARY, Columbus, April 8.—Warden P. E. Thomas was formally notified today that James Walton, who led a sensational break from the prison February 19, had been captured in Philadelphia after a gun battle with detectives.

Walton was shot in the legs after he and a companion attempted to flee from detectives who approached them in a Philadelphia park. He was removed to a hospital and placed under guard.

Walton was said to have confessed his identity when doctors told him there was no hope for his recovery. He will be brought to the prison here as soon as he recuperates.

Walton broke out of the penitentiary with P. McDermott, triggerman in the assassination of Don R. Mellett, editor of the Canton Daily News, and three other convicts. Walton was the only one who evaded capture.

After Walton was shot, Warden Thomas said, he attempted to shoot the detectives from where he lay. They leaped upon him and subdued him.

Walton was admitted to the prison on Dec. 23, 1927, from Cleveland, to serve 10 to 25 years for robbery.

STAND IN LINE-DON'T CROWD

Foaming Beer Mug Apparently Coming Back To
Thirsty Wisconsin

MADISON, Wis., April 8.—The foaming beer mug appeared to be just around the corner today for thirsty Badgers.

Demanding by Wisconsin voters in a referendum last week, a bill to repeal the state prohibition enforcement act and erase penalties for beer making, starts its legislative career tomorrow with few if any snags showing above the surface.

The state senate, where drys had hoped to block the act, appeared to be safe for the wet, a poll showing nineteen of the thirty-three members ready to vote for the measure. The house is considered overwhelmingly wet.

BOMB SENT TO ROOSEVELT IS INTERCEPTED

Porter Discovers Dynamite
Sent To Governor

NEW YORK, April 8.—Because of the vigilance of a porter at the general post office, Governor Franklin D. Roosevelt has been saved from possible injury or death from a dynamite bomb.

A short time after the bomb was discovered, the \$100,000 home of Roosevelt's son-in-law, C. B. Dall, near Tarrytown, N. Y., was destroyed by fire.

While police believed the blaze was of incendiary origin, they said they had found no evidence that the bomb and the fire were part of the same plot against the Roosevelt family.

Thomas J. Callegry, a porter, was sweeping out yesterday when he heard a hissing sound in a pile of packages. He bent over and saw smoke trickling out of a parcel wrapped in brown paper. Callegry kicked the package. The noise ceased and the smoke stopped.

He doused the parcel in a bucket of water and called postoffice officials.

When Inspector James Callahan, an expert on internal machines, arrived and cautiously opened the package he found a one-pound tin candy box, and inside of that a four-inch piece of pipe sealed at each end with wax. The pipe, he said, was loaded with dynamite.

The fuse and detonator were attached to four matches, arranged to ignite on sandpaper when the lid of the box was lifted.

The package was addressed: "Hon. F. D. Roosevelt, Mansion House, Albany, N. Y."

Detectives pointed out that when Callegry kicked the box he snapped the fuse, which apparently had become ignited by friction between the matches in the box.

The return address on the box, yielded no disclosures to the identity of the sender.

ALBANY, N. Y., April 8.—The attempt to mail a bomb to Governor Franklin D. Roosevelt is the second such experience he has had in public life.

When Roosevelt was assistant secretary of the navy in President Wilson's cabinet, a bomb was mailed to him during the World War, but was discovered before it reached him.

The governor returned last night from his home in Hyde Park where he spent the week end and apparently was unworried by the incident.

NARROW SEARCH FOR MISSING FLYERS

SYDNEY, N. S. W., April 8.—Search for the trans-Pacific airplane, Southern Cross, and its crew of four, narrowed today to an area 250 miles in diameter in the wilds between Wyndham and Port George Mission, after the finding of a disabled searching plane and the report of its pilot.

Advices were received here today that Pilot Chater, who had been given up for lost after having been on a reconnaissance tour looking for the Southern Cross crew in the dense jungles between Drysdale Mission Station and Wyndham, had been located near Port George Mission, 250 miles west of Wyndham.

Residents at that place told Chater they had seen a plane, whose description answers that of the Southern Cross, fly over the station a week ago Sunday after noon.

AN EXPERT SPEAKS

Mrs. Emily Post, Dictator Of Social Etiquette,
Passes Buck To Stimson

Left, Mrs. Edward E. Gann; right, Mrs. Emily Post and Vice President Curtis.

By BONITA WITT
Staff Writer for Central Press and
The Gazette

WASHINGTON, April 8.—Ever since Vice President Curtis assumed the state department by personally requesting that his sister and official hostess, Mrs. Edward E. Gann, be given equal rating with him on dinner party seating lists given out by them, Washington hostesses have been seriously upset.

Should they risk the vice president's displeasure by seating his sister below the foreign ambassadors and ministers, as decreed by Secretary of State Frank B. Kellogg before he retired, or accord her the same rating extended the wife of the vice president?

An Authority Speaks
Now to add to the distress of the official matrons comes a fearful words from the lips of Mrs. Emily Post, arbiter of social etiquette, who declares it is "social death" to blunder in the important manner of arranging place cards at a dinner party in Washington.

She further asserts that precedence, "the bane of the Washington hostesses," is as "difficult as a cryptogram" to solve.

Wherever the Hoovers are being entertained, they naturally are the guests of honor except in event that visiting foreign sovereigns or presidents are present. Then comes the vice president, followed by the various ambassadors in the order that they have been appointed to Washington. Then the chief justice. If the president is present

So while Secretary of State Henry L. Stimson and his experts on social usage ponder the request of the vice president the agitated matrons are spending anxious moments over their dinner lists lest they inadvertently commit "social death."

Even before the inauguration Mrs. Gann's social rating was the target for attack. The Senate Ladies' Luncheon club, an informal group, refused to elect her its president and tendered the honor to Mrs. George H. Moses, wife of the senator from New Hampshire, ruling that only the wife of a vice president was eligible for the office.

So while Secretary of State Henry L. Stimson and his experts on social usage ponder the request of the vice president the agitated matrons are spending anxious moments over their dinner lists lest they inadvertently commit "social death."

BELIEVE THREE FISHERMEN DROWNED IN SANDUSKY BAY

Recovery Of Upright Boat Reveals Tragedy On
Lake; Believe Trio Thrown Into Lake
During Storm

MARBLEHEAD, O., April 8.—Three Fremont fishermen reported missing in an open boat in Sandusky Bay after a severe blow struck today when their upturned boat was found on the bay shore near the mouth of the lake.

The boat was found after an all-night search in which the coast guards and friends of the missing men took part. It was swollen, apparently when it was swamped by the wind-lashed waters.

The missing men are J. C. Notstine, a grocer and member of the civil service commission; Earl Fought, 27, a city mail carrier, and Carl Graves, 29, a salesman.

The men were last seen fishing off shore at 10 a. m. Sunday, just before a series of stiff squalls swept the bay.

The squalls were followed by a storm that whipped up raging seas and it was after this that the boat was found to be missing.

Searching parties were organized and the coast guard was called. The waters were searched along the bay shore and along the lake shore as far as Port Clinton, without avail.

The search continued during the night and resulted in the finding of the capsized boat by guardsmen under Capt. R. A. Morton.

TWO ARE KILLED
IRONTON, O., April 8.—Two persons were killed and two were injured when their automobile left New Castle Pike near here Sunday and plunged over a 20-foot embankment. Those killed were Fred Hill, 35, and Mrs. Minnie Pennington, 56, both of Pine Grove.

Those injured were Charles Heading, 38, and Cattie Gilmore, 20, both of Ironton. Heading was driving.

MEXICAN FEDERALS ATTEMPTING TO PEN REBELS IN SONORA

Revoltors Evacuate Chihuahua In Face Of
Attacks

PROTECT AMERICANS

Naco Seige Ends; Tourists Seeking Souvenirs In City

By United Press

While eighteen United States army airplanes patrolled the Arizona border today to protect American lives and property, Mexican federal troops were relentlessly driving the rebel forces into a cul-de-sac in the state of Sonora, where they would be forced to fight or surrender.

Sonora is bounded on the north by Arizona. On the east is Chihuahua, through which Juan A. Almazan, federal commander, was advancing steadily. On the west is the Gulf of California. On the south is Sinaloa, where the rebel forces of General Francisco Manzo and Gen. Roberto Cruz, repulsed from Mazatlan, were retreating northward toward Sonora, closely pursued by federal troops.

Gen. J. Gonzalo Escobar, rebel commander-in-chief, was being driven northward through Chihuahua towards Sonora by Almazan's forces. The rebels were reported to be evacuating Chihuahua City.

Meanwhile, the strong rebel force under Gen. Fausto Topete which attacked Naco, Sonora, on the Arizona border, had been repulsed and was retreating southward. It was considered most likely that Topete would attempt a junction with the forces of Escobar, Manzo and Cruz, and that the three rebel divisions would make a last stand in Sonora.

General William B. Lassiter, U. S. army commander at San Antonio, has been given orders from Washington to take whatever means he deems necessary to protect American lives and property, as an aftermath of the border incidents in which Americans were wounded and a bomb dropped by rebel airmen in Naco, Arizona.

The arrival of the eighteen U. S. planes was considered far warring against the American side of the line would be protected against further violence.

NACO, Ariz., April 8.—Naco resumed its normal routine of life today, the Mexican revolution over so far as it's concerned.

The battle of musketry and crash of aerial bombs had given way to the tiny music of electric pianos and jangle of cash registers after rebel forces lifted the siege of the beleaguered Mexican town across the line.

Hundreds of American tourists were permitted to enter the battle area yesterday and today only a remnant of the souvenir hunters boarded up windows gave any indication that revolution ever existed in this sector.

Having routed two rebel assaults, the federal garrison of Naco, Sonora, took a breathing spell while insurgents under General Fausto Topete retreated southward, leaving behind stragglers and much equipment.

Advices indicated Topete had two reasons for his retreat, one the defeat of his forces Saturday and the other because of reverses suffered by Generalissimo J. G. Escobar in Chihuahua. One report was that Topete had been ordered to relinquish the command of General Francisco Manzo, who attempted unsuccessfully to capture Mazatlan on the west coast.

Recovering the body of a woman from the river

CINCINNATI, O., April 8.—Police today expressed the belief that a 35-year-old well dressed woman whose body was taken from the Little Miami River near Milford, Sunday, had been murdered.

The head bore evidence of having been struck although it was pointed out that driftwood may have caused the bruises. The murder theory was strengthened, however, by the fact that the lungs did not contain water.

The woman was small in stature. She weighed less than 100 pounds.

DAYTONIAN KILLED

SPRINGFIELD, O., April 8.—P. J. Hopkins, 45, of Dayton, was killed and three other persons were injured when Hopkins' car turned over and burst into flames near here Sunday.

The head bore evidence of having been struck although it was pointed out that driftwood may have caused the bruises. The murder theory was strengthened, however, by the fact that the lungs did not contain water.

The woman was small in stature. She weighed less than 100 pounds.

The search continued during the night and resulted in the finding of the capsized boat by guardsmen under Capt. R. A. Morton.

GENERAL ASSEMBLY
FINISHES ITS WORK
PASSING 223 BILLS

(Continued From Page One)

tax on premiums collected from foreign insurance companies from three to two and one-half per cent.

4. The Morgan-Rohr act, providing for a new state office building, and levying a two-tenths mill state tax to finance it.

5. The Herbert bill, revising the "blue sky" or securities laws.

6. The Marshall bill, recodifying the general corporation laws.

7. The Herbert-Martin revision of the election laws, providing optional permanent registration in cities and other reforms.

8. The Emmons bill, creating a state division of conservation in the department of agriculture.

9. The Gillen bill, recodifying and modernizing the criminal procedure code.

10. The Norton highway bill, which abolishes the abutting property assessment for state highways, in most cases, and authorizes regional highway projects.

The appropriations approved by the legislature set a new high record, despite Governor Cooper's economy platform and his plea stressing to the assembly "the imperative need for strict economy in all matters of appropriation."

The major appropriation bill was the largest ever passed, carrying a total of \$119,100,000 for the expenses of the state government in 1929 and 1930, including the funds for state highway construction and maintenance derived from gasoline and motor licenses taxes.

The Wendt reappropriation bill, reappropriating items allowed by the 1927 legislature and not expended in the last biennium for institutional buildings and the like, carried \$2,201,300.

The Clapp reappropriation measure carried \$125,000 for Cleveland State Hospital and 37th division monument commission.

The supplemental appropriation bill, for state buildings and other supplemental purposes totaled \$1,376,700.

The omnibus "sundries claims" measure, to pay all imaginable kinds of claims against the state, added another \$725,489 to the grand total.

The levy provided in the office building bill is expected to yield \$5,250,000 and this money and the funds to be obtained by sale of the Wyandot state office building, worth at least \$500,000, also, go into the general total appropriated.

The tax measures approved included the four-cent gasoline tax bill, the office building levy, and two bills permitting levies up to three-tenths of a mill in cities for the support of firemen's and policemen's pension funds.

Other major measures enacted included:

The Cramer-Gillen "habitual criminal bill," providing life imprisonment for criminals convicted of a fourth offense against the major felony laws. It does not apply to prohibition law violations.

The Boden bill, raising the automobile speed limit to forty-five miles an hour outside municipalities, to thirty-five miles in the outskirts of municipalities and twenty miles in congested or business districts.

The Bender bill, providing for strict regulation of privately-owned feed-charging employment agencies.

The Anderson bill, permitting cities to use part of their share of the gasoline tax for street construction, as well as maintenance and repair.

The Hadden resolution, proposing a constitutional amendment to abolish the "uniform rule" in taxation and permit classification of property other than real estate and improvements.

The Keifer resolution, proposing an amendment to permit the legislature to change the distribution of the inheritance tax revenues.

Six bills creating nine new common pleas judges.

The house defeated a bill that would have added another judge for the Tuscarawas county court.

Governor Cooper has already signed thirty-five measures enacted by the assembly. He will consider the others as they reach him during the next ten days or so, having ten days in which to sign or veto them after they are sent to him.

So far the governor has vetoed only one measure. That was the Miller act, to permit state-supported educational institutions to build dormitories for their students, financing the projects by issuing bonds and redeeming these from the dormitory revenues.

It has been intimated Cooper may veto some or all of the bills creating new judgeships.

PROHIBITION HOLDS
PROMINENT PLACE
IN CAPITAL ACTIVITIES

(Continued From Page One)

and fifteenth as well as the eighteenth amendment, Rep. Tinkham, Republican, Massachusetts charged the amendments giving negroes citizenship and a vote are being disregarded in several southern states.

"No laws have been passed to enforce these amendments," the letter said. "They are now wholly and grossly nullified in many states. Negroes are counted in the population for purposes of representation in the lower house of congress and then disfranchised, giving those states disproportionate representation, unfair to other states of the union, and thereby making election to the house of representatives and of the president illegal and unconstitutional."

"The eighteenth amendment was placed in the constitution under a subterfuge as a war measure and by the expenditure of a vast amount of money. It is not in conformity with the principles of the constitution and its proper functions."

Henry H. Curran declared the recent report by Assistant Secretary of Treasury Lowman, which recounted killings of American citizens by dry officers, was "so deceptive in some cases and so untruthful in others that I cannot let it go unchallenged."

Curran referred particularly to the report of the shooting of Jacob Hansen at Niagara Falls, N. Y., by coast guardsmen last spring. Curran said Lowman's statement that Hansen "refused to submit to search and attempted to run down officers" was inadequate.

"Jacob Hansen," Curran said, "an innocent man, was shot to death in the night by federal officers who acted like highwaymen and Mr. Lowman disposes of the

matter with this epitaph: 'Refused to submit to search and attempted to run down officers.'"

Meantime, plans of the Hoover administration for more effective organization of federal law enforcement agencies were reviewed in a radio address Saturday night by Attorney General Mitchell.

Emphasizing that nothing in the nature of a spectacular drive is intended by the administration, Mitchell said progress sought must be gained by steady, earnest, and persistent efforts over weeks, months, or even years.

His remarks were the first formal enunciation of the policy of the administration, which was learned on high authority the day before. Mitchell's radio speech was followed last night by one by Senator Capper, Rep. Kan., who entered a plea to all Americans to educate themselves to observe the constitution and to obey the laws of the country no matter what his station in life.

The supplemental appropriation bill, for state buildings and other supplemental purposes totaled \$1,376,700.

The omnibus "sundries claims" measure, to pay all imaginable kinds of claims against the state, added another \$725,489 to the grand total.

The levy provided in the office building bill is expected to yield \$5,250,000 and this money and the funds to be obtained by sale of the Wyandor state office building, worth at least \$500,000, also, go into the general total appropriated.

The tax measures approved included the four-cent gasoline tax bill, the office building levy, and two bills permitting levies up to three-tenths of a mill in cities for the support of firemen's and policemen's pension funds.

Other major measures enacted included:

The Cramer-Gillen "habitual criminal bill," providing life imprisonment for criminals convicted of a fourth offense against the major felony laws. It does not apply to prohibition law violations.

The Boden bill, raising the automobile speed limit to forty-five miles an hour outside municipalities, to thirty-five miles in the outskirts of municipalities and twenty miles in congested or business districts.

The Bender bill, providing for strict regulation of privately-owned fee-charging employment agencies.

The Anderson bill, permitting cities to use part of their share of the gasoline tax for street construction, as well as maintenance and repair.

The Hadden resolution, proposing a constitutional amendment to abolish the "uniform rule" in taxation and permit classification of property rather than real estate and improvements.

The Kiefer resolution, proposing an amendment to permit the legislature to change the distribution of the inheritance tax revenues.

Six bills creating nine new common pleas judges.

The house defeated a bill that would have added another judge for the Tuscarawas county court.

Governor Cooper has already signed thirty-five measures enacted by the assembly. He will consider the others as they reach him during the next ten days or so, having ten days in which to sign or veto them after they are sent to him.

So far the governor has vetoed only one measure. That was the Miller act, to permit state-supported educational institutions to build dormitories for their students, financing the projects by issuing bonds and redeeming these from the dormitory revenues.

It has been intimated Cooper may veto some or all of the bills creating new judgeships.

PROHIBITION HOLDS PROMINENT PLACE IN CAPITAL ACTIVITIES

(Continued From Page One)

and fifteenth as well as the eighteenth amendment, Rep. Tinkham, Republican, Massachusetts charged the amendments giving negroes citizenship and a vote are being disregarded in several southern states.

"No laws have been passed to enforce these amendments," the letter said, "They are now wholly and grossly nullified in many states. Negroes are counted in the population for purposes of representation in the lower house of congress and then disfranchised, giving those states disproportionate representation, unfair to other states of the union, and thereby making election to the house of representatives and of the president illegal and unconstitutional."

"The eighteenth amendment was placed in the constitution under a subterfuge as a war measure and by the expenditure of a vast amount of money. It is not in conformity with the principles of the constitution and its proper functions."

Henry H. Curran declared the recent report by Assistant Secretary of Treasury Lowman, which recounted killings of American citizens by dry officers, was "so deceptive in some cases and so untruthful in others that I cannot let it go unchallenged."

Curran referred particularly to the report of the shooting of Jacob Hansen at Niagara Falls, N. Y., by coast guardsmen last spring. Curran said Lowman's statement that Hansen "refused to submit to search and attempted to run down officers" was inadequate.

"Jacob Hansen," Curran said, "an innocent man, was shot to death in the night by federal officers who acted like highwaymen and Mr. Lowman disposes of the

matter with this epitaph: 'Refused to submit to search and attempted to run down officers.'"

Meantime, plans of the Hoover administration for more effective organization of federal law enforcement agencies were reviewed in a radio address Saturday night by Attorney General Mitchell.

Emphasizing that nothing in the nature of a spectacular drive is intended by the administration, Mitchell said progress sought must be gained by steady, earnest, and persistent efforts over weeks, months, or even years.

His remarks were the first formal enunciation of the policy of the administration, which was learned on high authority the day before.

Mitchell's radio speech was followed last night by one by Senator Capper, Rep., Kan., who entered a plea to all Americans to educate themselves to observe the constitution and to obey the laws of the country no matter what his station in life.

GIRLS BIBLE HOUR

TUESDAY EVENING

A number of girls from the churches over the city have been joining the "Girls Bible Hour," conducted weekly under the auspices of the young women of the First Reformed Church every Tuesday evening at 7 o'clock at the home of Mrs. John G. Eavey, Pleasant St. It is expected that a large group of girls will be present for the meeting Tuesday evening. The topic to be discussed is "The Bridge Between Romance and Reality."

Special music directed by Miss Emma LaMar will open the meeting.

TO INITIATE CLASS

All candidates who are to be taken in as members of Obedient Council, No. 160, Daughters of America, are asked to be present at the Junior Hall not later than 7:45 p. m. Tuesday. Council members are expecting the following Greene County Council members to attend: Victoria Council of Paintersville; Pride of Xenia Council, this city; Remember the Maine Council, Spring Valley; Pride of Magnetic Council, Bellbrook, and Evening Star Council of Osborn.

WILL ENTERTAIN FOR BRIDE-ELECT

Miss Sarah Hagar, N. Galloway St., will entertain the St. Agnes Guild of the Christ Episcopal Church, Wednesday noon, with a luncheon honoring Miss Mary Little, bride-elect of this week. Miss Little is a member of the guild.

Mrs. William Masee Wilson and Mrs. A. C. Messenger, this city, and Mrs. Herbert M. Backus, Columbus, were honor guests at a lovely luncheon given at the home of Mrs. C. C. Corry, W. College Ave., Springfield, Monday, preceding the meeting of Loganda Chapter, D. A. R.

McClelland W. C. T. U. will meet Wednesday afternoon at 1:30 at the home of Mrs. Frank Green, Alpha. The topic to be discussed is "Temperance and Missions." A full attendance is desired.

Misses Faith and Juanita Rankin, E. Main St., will attend the wedding of Miss Bess Belle Barton and Mr. George E. Floridas, to be held at the bride's home in Riverdale, Dayton, Monday evening. Miss Juanita Rankin will play for the wedding.

Mr. and Mrs. Henry L. Farrell, Cleveland, former Xenians, are parents of a son born Saturday. He will be named Thomas Burns Farrell. The child is their third, there being another boy and a girl. Mr. Farrell is sports editor of the Newspaper Enterprise Association and Mrs. Farrell was formerly Miss Catherine Shoup.

Mrs. W. E. Jacobs, S. Detroit St., left Sunday for Bellevue, Ky., where she will spend several weeks with relatives.

The meeting of the Sunshine Society which was to have been held Tuesday afternoon at the home of Mrs. J. W. Faulkner, Hill St., has been postponed until Tuesday, April 15.

The Ladies Aid Society of the First Lutheran Church will meet Wednesday afternoon at the home of Mrs. Fred Randall, Center St.

Mrs. A. J. Canny, who has been visiting relatives and friends in Chicago and other places for the past three months, returned to her home here on Hill St.

Mr. and Mrs. E. G. Whitworth, have moved into the Reynolds Apts., on E. Church St., moving here from Dayton.

Misses Elizabeth Stout, Mary Hamlin and Elizabeth Bickett, who have been spending their spring vacation here with their parents and friends, will return, Monday, to Miami University, to continue with their studies.

Miss Mary Carolyn Smith, who has been spending her spring vacation here with her parents, Mr. and Mrs. Harry D. Smith, N. Galloway St., has returned to Washington, D. C., where she attends the Wilson Kindergarten training school.

Mrs. John Berger and children, left Saturday evening for Chambersburg, Pa., where they will make their future home. Mr. Berger has accepted a position as salesman for a granite company owned by his uncle, Mr. John K. Berger.

Mr. and Mrs. Carl Riley, N. Detroit St., and Mr. and Mrs. Ralph James, Fairground Road, were guests of Mr. and Mrs. Clyde Reynolds, 217 Fairview Ave., Columbus, Sunday.

Mr. H. E. Schmidt, who has been spending his spring vacation here with his parents, Mr. and Mrs. E. H. Schmidt, W. Third St., returned last Sunday morning by motor for Massanutten Military Academy, Woodstock, Va., where he attends school. He was accompanied by Mr. James Riley, Dayton, a fellow student.

Xenia Lodge No. 52, I. O. O. F., will hold its regular meeting Tuesday evening. All members of the third degree staff are requested to be present for rehearsal. This degree will be conferred Monday, April 15.

The Missionary Society of the First Reformed Church will meet Wednesday afternoon at 2 o'clock at the home of Mrs. J. A. Yoder, 432 N. Galloway St.

The Ruth Guild of the Presbyterian Church will be received Monday evening by Mrs. Paul Cox and Mrs. W. T. Ungard, at the home of Mrs. C. N. King St. Robert Haws will continue the study on Africa. A full attendance is urged.

Mrs. Margaret Reynolds and Mrs. Arthur Perrill, N. King St., attended the funeral services of Mrs. J. J. Ware, Mechanicsburg, Sunday afternoon.

Mrs. Emma Bingham, W. Market St., has returned to her home after spending the winter with her sister, Mrs. William Wilkinson, of New Jasper.

Miss Mary Andrews, Jamestown Pike, who has been ill at her home for some time, does not show much improvement.

Mr. and Mrs. Fred Powers, Federal Pike, are announcing the birth of a son, Sunday afternoon. The baby has not been named.

Mrs. R. Whitmer and daughter, Dorothy, Cincinnati, were the week end guests of Mrs. C. A. Davis, N. Galloway St.

Mr. and Mrs. Roscoe Ellis, Paintersville, are announcing the birth of a twelve-pound son, Monday morning. The baby has not been named.

Mrs. Frank Keyes, will entertain the "Current Events Club" of Xenia, with a luncheon at her home in Dayton, Tuesday afternoon. She will be assisted by Mrs. George Hudson of Dayton.

BODY OF KIDNAPED NEWS GIRL FOUND; MURDERED BY BLOW

TERRE HAUTE, Ind., April 8.—One of Indiana's most mysterious crimes was partly solved today with the recovery of the body of 10 year old Edith Dierdorf, the smiling little Terre Haute news-girl who disappeared last January 27.

The finding of Edith Mae's body in Busserson Creek yesterday by Nimrod Slaven and his family who were hunting spring flowers in the woods revealed that she had been murdered by a blow on the head after being kidnaped, but it threw no light on the identity of her slayer.

Slaven, principal of the county school at Pleasantville, was called to the creek bank by one of his children who was fishing in the murky water and had discovered the news-girl's body. He notified authorities who dislodged the body from the branches of a tree in which it had been caught while floating down stream.

Edith Mae's feet had been wired together but the body had been in the water so long that very little about the crime could be obtained by examining it. The news-girl's parents who had hoped for ten weeks that she would be found alive and brought back to the family of nine children identified the body by its clothing which was the same that Edith Mae wore when she was last seen riding away with a man in an automobile.

DRY RAIDERS KILL ALLEGED VIOLATOR

LEXINGTON, Mo., April 8.—An inquest was ordered to day into the killing of Fred Harrington, 40, in a dry raid at his home near Dover, Mo., Saturday night in which prohibition agents confiscated a pint of liquor.

Harrington was shot by Eugene Seitz, a deputy constable, when he allegedly resisted the raid and attacked Constable Clarence Potts. Seitz said he shot Harrington while the latter was beating the constable.

DECAPITATES WIFE

TERRELLA, Texas, April 8.—The Rev. James Roberts, retired Baptist preacher, decapitated his wife with an axe at their home here today. Roberts was said to have been ill for some time. He was jailed pending examination.

Movie Fashions

Tomato is one of the accepted spring shades. Mary Brian, popular young cinema player, combines an orange and white print with a tomato colored jumper with chic results.

THE LONG AND SHORT OF IT By Laird

To bob or not to bob was the question of yesterday. Now the burning issue is whether womankind shall stay bobbed or let the mane grow.

A beauty expert, addressing a group of her associates, declared that there are only three kinds of women who have long hair, those who think the bob is too expensive, the young girl who wants to show that she can grow long hair, and the woman who has not yet found the short hair mode that is becoming.

Women have been advocating their "rights" for quite some time. Their right to vote, for instance. When they got it many of them decided it wasn't so effective a weapon after all, and men upbraided them for making such a howl about the franchise and then not im-

mediately reforming the world with it. Women have "suffered" with long hair for generations, largely because the Bible said, "the glory of a woman is her hair." It does not say "of her long hair," but women took it for granted that short hair could not be beautiful and kept it long.

But they have become emancipated in that, too, and have found the beauty and convenience of short hair, but all of them are not satisfied.

The real secret is that if a woman thinks short hair is becoming she will wear it short. If she decides that long hair enhances her beauty and makes her more desirable, she will wear her hair long, and that's the long and short of it.

HOME TRUSTEE BOARD WILL BE RE-ORGANIZED NEXT SUNDAY

Organization of the new board of trustees of the O. S. and S. O. Home will be effected at an adjourned board meeting scheduled for 10 o'clock next Sunday morning, Col. Charles V. Burton, superintendent, announced Monday.

Two new trustees, Herbert Mooney, Woodsfield, past state department commander of the American Legion, and Morton M. Edwards, Ironton banker and a Legionnaire, will take their seats at this meeting, as well as Ralph H. Carron, Cleveland, past state department commander of the United Spanish War Veterans, who was re-appointed.

These three Republican appointments made by Governor Cooper were confirmed by the senate last week.

Routine business was transacted Saturday night at the regular monthly meeting of the board. The two hold-over members, Miss E. Jane Bailey, Wapakoneta, and Col. W. T. Amos, Sidney, Democrats, were in attendance.

Retiring board members who have been succeeded by Mooney and Edwards are Judge Rell G. Allen, Washington C. H., and Marcus R. Limb, Wooster. Limb, a Democrat, was chairman of the old board.

A program of improvements and

SCHIRMER BARRED FROM PRACTICING

CINCINNATI, O., April 8.—John L. Schrimper, Cincinnati attorney, who was involved with former State Treasurer Bert B. Buckley in the Cincinnati beer "protection" scandal, was ordered disbarred today.

The order was entered by Common Pleas Judge Chester R. Shook and Thomas H. Darby after charges against Schrimper and Adolph Gruber, another attorney involved, were filed by the Cincinnati Bar Association. Schrimper, Buckley and Joseph Sperber, brewmeister of the Jackson Brewery here, who also was involved, are under federal sentence for their part in the alleged conspiracy.

Gruber was named a co-conspirator but was not indicted. Schrimper said he would not fight disbarment and the order was entered immediately. Gruber said he would oppose the action and came into court represented by counsel.

His trial started at once.

Miami Valley Hospital, Dayton, is survived by four cousins, Otto Wilson, Fairfield; Mrs. William M. Wilson, Xenia; Russell F. Greiner, Kansas City, Mo., former Xenian, and Mrs. Frank D. Johnston, Dayton. Funeral services will be conducted at 2 p. m. Tuesday at the Morris and Sons funeral home, 1809 E. Third St., Dayton, with interment in the Fairfield Cemetery. Friends are asked to please omit flowers.

ENTERS HOSPITAL

John A. Perkins, law student, will enter the Jewish Hospital at Cincinnati Monday afternoon for an examination by Drs. A. H. Frieberg and Joseph Frieberg, specialists, with regard to an injury to the left ankle, in which arthritis has developed. The ankle is fractured and the injury resulted from a fall on the ice about two months ago. Since that time he has been forced to walk on crutches. An operation may be necessary.

LEADERS REMAIN IN TOP POSITIONS

A total of 115 games have been rolled in the headline bowling tournament being sponsored by The Bryant Motor Sales Co., at the Recreation Parlor.

Despite daily onslaughts on the maples the standing of the four leaders remains unchanged with the tourney half over.

The four leaders are: Brickel, 116; Frame, 114; Peterson, 111 and McGee, 110.

The tournament will continue throughout this week. Bowlers may roll an unlimited number of times.

MANY LIVES LOST IN MAKING WAR FILM

Many lives were lost, the archives of a dozen or more nations searched and eight years consumed in the making of the great film classic, "The World War," which will be shown at the Bijou Theater Thursday, April 11, matinee and night, under auspices of Joseph P. Foody Post, No. 95, American Legion.

The story of this picture's creation, the lives lost in "shooting" its scenes, the months of delving into the records of the governments of the United States, Great Britain, France, Italy, Russia and Germany to obtain official data and pictures, the years devoted to its careful preparation, and the official seals of the United States navy and army departments stamped on the film (the first time in the history of motion pictures that those seals have appeared on films), all these unusual elements make it what it is said to be—"the first big historical motion picture of the World War."

HILLSBORO MAN TO FACE TWO CHARGES

W. N. Davies, Hillsboro, was cited by Sheriff Ohmer Tate to appear in Probate Court at 2 o'clock Monday afternoon to answer to charges of reckless driving and failing to stop in case of an accident.

Authorities allege that Davies drove on without stopping after his auto had sideswiped that of W. G. Lowry, Dayton, at the foot of Lucas hill on the Dayton-Xenia Pike at 1 a. m. Sunday.

A passing motorist, who saw the accident, chased Davies and overtook him in front of the Greene County Infirmary.

Davies was driving east and Lowry in the opposite direction when the accident occurred.

No one was injured but two fenders on Lowry's car were torn loose from the running board and the hub cap was also damaged. Davies asserted that the reason he continued without stopping was because he was unaware that his car had sideswiped that of Lowry.

STOP BAD BREATH

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

Olive Tablets bring no griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after 20 years of practice among patients afflicted with bowel and liver complaint, with attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take nightly for a week and note the effect. 15c, 30c, 60c. All Druggists.

The Keystone To Happiness

What would life be worth without sight? Nearly all our pleasures—as well as our ability to make a living—depend upon our sight.

Yet many people neglect their eyes badly, failing to give them the attention they require.

If your eyes are at fault you will find us highly competent to serve you. All our time is spent in making examinations of weak and tired eyes and providing glasses for their relief.

GIRLS BIBLE HOUR

TUESDAY EVENING

A number of girls from the churches over the city have been joining the "Girls Bible Hour," conducted weekly under the auspices of the young women of the First Reformed Church every Tuesday evening at 7 o'clock at the home of Mrs. John G. Eavey, Pleasant St. It is expected that a large group of girls will be present for the meeting Tuesday evening. The topic to be discussed is "The Bridge Between Romance and Reality."

Special music directed by Miss Emma LaMar will open the meeting.

TO INITIATE CLASS

All candidates who are to be taken in as members of Obidient Council, No. 160, Daughters of America, are asked to be present at the Junior Hall not later than 7:45 p. m. Tuesday. Council members are expecting the following Greene County Council members to attend: Victoria Council of Paintersville; Pride of Xenia Council, this city; Remember the Maine Council, Spring Valley; Pride of Magnetic Council, Bellbrook, and Evening Star Council of Osborn.

WILL ENTERTAIN FOR BRIDE-ELECT

Miss Sarah Hagar, N. Galloway St., will entertain the St. Agnes Guild of the Christ Episcopal Church, Wednesday noon, with a luncheon honoring Miss Mary Little, bride-elect of this week. Miss Little is a member of the guild.

Mrs. William Magee Wilson and Mrs. A. C. Messenger, this city, and Mrs. Herbert M. Backus, Columbus, were honor guests at a lovely luncheon given at the home of Mrs. C. C. Corry, W. College Ave., Springfield, Monday, preceding the meeting of Lagonda Chapter, D. A. R.

McClelland W. C. T. U. will meet Wednesday afternoon at 1:30 at the home of Mrs. Frank Green, Alpha. The topic to be discussed is "Temperance and Missions." A full attendance is desired.

Misses Faith and Juanita Rankin, E. Main St., will attend the wedding of Miss Bess Belle Barton and Mr. George E. Florides, to be held at the bride's home in Riverside, Dayton, Monday evening. Miss Juanita Rankin will play for the wedding.

Mr. and Mrs. Henry L. Farrell, Cleveland, former Xenians, are parents of a son born Saturday. He will be named Thomas Burns Farrell. The child is their third, there being another boy and a girl. Mr. Farrell is sports editor of the Newspaper Enterprise Association and Mrs. Farrell was formerly Miss Catherine Shoup.

Mrs. W. E. Jacobs, S. Detroit St., left Sunday for Bellevue, Ky., where she will spend several weeks with relatives.

The meeting of the Sunshine Society which was to have been held Tuesday afternoon at the home of Mrs. J. W. Faulkner, Hill St., has been postponed until Tuesday, April 15.

The Ladies Aid Society of the First Lutheran Church will meet Wednesday afternoon at the home of Mrs. Fred Randall, Center St.

Mrs. A. J. Canny, who has been visiting relatives and friends in Chicago and other places for the past three months, returned to her home here on Hill St.

Mr. and Mrs. E. G. Whitworth, have moved into the Reynolds Apts., on E. Church St., moving here from Dayton.

Misses Elizabeth Stout, Mary Hamlin and Elizabeth Bickett, who have been spending their spring vacation here with their parents and friends, will return, Monday, to Miami University, to continue with their studies.

Miss Mary Carolyn Smith, who has been spending her spring vacation here with her parents, Mr. and Mrs. Harry D. Smith, N. Galloway St., has returned to Washington, D. C., where she attends the Wilson Kindergarten training school.

Mrs. John Berger and children, left Saturday evening for Chambersburg, Pa., where they will make their future home. Mr. Berger has accepted a position as salesman for a granite company owned by his uncle, Mr. John K. Berger.

Mr. and Mrs. Carl Riley, N. Detroit St., and Mr. and Mrs. Ralph James, Fairground Road were guests of Mr. and Mrs. Clyde Reynolds, 217 Fairview Ave., Columbus, Sunday.

Mr. H. E. Schmidt, who has been spending his spring vacation here with his parents, Mr. and Mrs. E. H. Schmidt, W. Third St., returned last Sunday morning by motor for Massanutten Military Academy, Woodstock, Va., where he attends school. He was accompanied by Mr. James Riley, Dayton, a fellow student.

Xenia Lodge No. 52, I. O. O. F., will hold its regular meeting Tuesday evening. All members of the third degree staff are requested to be present for rehearsal. This degree will be conferred Monday, April 15.

The Missionary Society of the First Reformed Church will meet Wednesday afternoon at 2 o'clock at the home of Mrs. J. A. Yoder, 432 N. Galloway St.

The Ruth Guild of the Presbyterian Church will be received Monday evening by Mrs. Purl Cox and Mrs. W. T. Ungard at the home of Mrs. Cox, N. King St. Mrs. Robert Hays will continue the study on Africa. A full attendance is urged.

Mrs. Margaret Reynolds and Mrs. Arthur Perrill, N. King St. attended the funeral services of Mrs. J. J. Ware, Mechanicsburg, Sunday afternoon.

Mrs. Emma Bingham, W. Market St., has returned to her home after spending the winter with her sister, Mrs. William Wilkinson, of New Jasper.

Miss Mary Andrews, Jamestown Pike, who has been ill at her home for some time, does not show much improvement.

Mr. and Mrs. Fred Powers, Federal Pike, are announcing the birth of a son, Sunday afternoon. The baby has not been named.

Mrs. R. Whitmer and daughter, Dorothy, Cincinnati, were the week end guests of Mrs. C. A. Davis, N. Galloway St.

Mr. and Mrs. Roscoe Ellis, Paintersville, are announcing the birth of a twelve-pound son, Monday morning. The baby has not been named.

Mrs. Frank Keyes, will entertain the "Current Events Club" of Xenia, with a luncheon at her home in Dayton, Tuesday afternoon. She will be assisted by Mrs. George Hudson of Dayton.

BODY OF KIDNAPED NEWS GIRL FOUND; MURDERED BY BLOW

TERRE HAUTE, Ind., April 8.—One of Indiana's most mysterious crimes was partly solved today with the recovery of the body of 10 year old Edith Dierdorf, the smiling little Terre Haute news girl who disappeared last January 27.

The finding of Edith Mae's body in Busserson Creek yesterday by Nimrod Slaven and his family who were hunting spring flowers in the woods revealed that she had been murdered by a blow on the head after being kidnaped, but it threw no light on the identity of her slayer.

Slaven, principal of the county school at Pleasantville, was called to the creek bank by one of his children who was fishing in the murky water and had discovered the news girl's body. He notified authorities who dislodged the body from the branches of a tree in which it had been caught while floating down stream.

Edith Mae's feet had been wired together but the body had been in the water so long that very little about the crime could be obtained by examining it.

The news girl's parents who had hoped for ten weeks that she would be found alive and brought back to the family of nine children identified the body by its clothing which was the same that Edith Mae wore when she was last seen riding away with a man in an automobile.

DRY RAIDERS KILL ALLEGED VIOLATOR

LEXINGTON, Mo., April 8.—An inquest was ordered to day into the killing of Fred Hearrington, 40, in a dry raid at his home near Dover, Mo., Saturday night in which prohibition agents confiscated a pint of liquor.

Hearrington was shot by Eugene Seitz, a deputy constable, when he allegedly resisted the raid and attacked Constable Clarence Potts. Seitz said he shot Hearrington while the latter was beating the constable.

DECAPITATES WIFE

TERRELL, Texas, April 8.—The Rev. James Roberts, retired Baptist preacher, decapitated his wife with an axe at their home here today. Roberts was said to have been ill for some time. He was jailed pending examination.

Movie Fashions

Tomato is one of the accepted spring shades. Mary Brian, popular young cinema player, combines an orange and white print with a tomato colored jumper with chic results.

THE LONG AND SHORT OF IT By Laird

To bob or not to bob was the question of yesteryear. Now the burning issue is whether womankind shall stay bobbed or let the mane grow.

A beauty expert, addressing a group of her associates, declared that there are only three kinds of women who have long hair, those who think the bob is too expensive, the young girl who wants to show that she can grow long hair, and the woman who has not yet found the short hair mode that is becoming.

Women have been advocating their "rights" for quite some time. Their right to vote, for instance. When they got it many of them decided it wasn't so effective a weapon after all, and men upbraided them for making such a howl about the franchise and then not im-

mediately reforming the world with it. Women have "suffered" with long hair for generations, largely because the Bible said, "the glory of a woman is her hair." It does not say "of her long hair," but women took it for granted that short hair could not be beautiful and kept it long.

But they have become emancipated in that, too, and have found the beauty and convenience of short hair, but all of them are not satisfied.

The real secret is that if a woman thinks short hair is becoming she will wear it short. If she decides that long hair enhances her beauty and makes her more desirable, she will wear her hair long, and that's the long and short of it.

HOME TRUSTEE BOARD WILL BE RE-ORGANIZED NEXT SUNDAY

Organization of the new board of trustees of the O. S. and S. O. Home will be effected at an adjourned board meeting scheduled for 10 o'clock next Sunday morning, Col. Charles V. Burton, superintendent, announced Monday.

Two new trustees, Herbert Mooney, Woodfield, past state department commander of the American Legion, and Morton M. Edwards, Ironton banker and a Legionnaire, will take their seats at this meeting, as well as Ralph H. Carrow, Cleveland, past state department commander of the United Spanish War Veterans, who was re-appointed.

These three Republican appointments made by Governor Cooper were confirmed by the senate last week.

Routine business was transacted Saturday night at the regular monthly meeting of the board. The two hold-over members, Miss E. Jane Bailey, Wapakoneta, and Col. W. T. Amos, Sidney, Democrats, were in attendance.

Retiring board members who have been succeeded by Mooney and Edwards are Judge Bell C. Allen, Washington, C. H., and Marcus R. Limb, Wooster, Limb, a Democrat, was chairman of the old board.

A program of improvements and betterments planned for the institution for the next two years will probably be discussed by the board at its meeting next Sunday, according to Col. Burton.

As one of its last acts, the state legislature increased the appropriation for the home last Saturday. The institution is being allowed \$768,000 for maintenance and operation and \$250,000 for development in the way of improvements.

The amount appropriated for maintenance and operation represented an increase of \$50,000 over the sum asked for this purpose, the added funds to be used for repairs. The home had sought \$543,000 for improvements.

These three Republican appointments made by Governor Cooper were confirmed by the senate last week.

Miami Valley Hospital, Dayton, is survived by four cousins, Otto Wilson, Fairfield; Mrs. William M. Wilson, Xenia; Russell F. Greiner, Kansas City, Mo., former Xenian, and Mrs. Frank D. Johnston, Dayton. Funeral services will be conducted at 2 p. m. Tuesday at the Morris and Sons funeral home, 1809 E. Third St., Dayton, with interment in the Fairfield Cemetery. Friends are asked to please omit flowers.

ENTERS HOSPITAL

John A. Perkins, law student, will enter the Jewish Hospital at Cincinnati Monday afternoon for an examination by Drs. A. H. Frieberg and Joseph Frieberg, specialists, with regard to an injury to the left ankle, in which arthritis has developed. The ankle is fractured and the injury resulted from a fall on the ice about two months ago. Since that time he has been forced to walk on crutches. An operation may be necessary.

BRAKEMAN KILLED

ELYRIA, O., April 8.—E. K. Kolby, brakeman for the New York Central, was killed here Sunday when he was struck by the third section of the Twentieth Century Limited. Kolby apparently did not see the train.

New Achievement In Face Powder

The skin of youth lies in every box of new wonderful MELLO-GLO Face Powder. The purest powder made—its color is passed by the U. S. Government. No pastiness, flakiness or irritation. A new French process makes it spread more smoothly and prevents large pores. No more shiny noses—it stays on longer. USE MELLO-GLO, Hutchison and Gibney. Adv.

LEADERS REMAIN IN TOP POSITIONS

A total of 115 games have been rolled in the headpin bowling tournament being sponsored by The Bryant Motor Sales Co., at the Recreation Parlor.

Despite daily onslaughts on the maples the standing of the four leaders remains unchanged with the tourney half over.

The four leaders are: Brickel, 116; Frame, 114; Peterson, 111 and McGee, 110.

The tournament will continue throughout this week. Bowlers may roll an unlimited number of times.

MANY LIVES LOST IN MAKING WAR FILM

Many lives were lost, the archives of a dozen or more nations searched and eight years consumed in the making of the great film classic, "The World War," which will be shown at the Bijou Theater Thursday, April 11, matinee and night, under auspices of Joseph P. Pody Post, No. 95, American Legion.

The story of this picture's creation, the lives lost in "shooting" its scenes, the months of delving into the records of the governments of the United States, Great Britain, France, Italy, Russia and Germany to obtain official data and pictures, the years devoted to its careful preparation, and the official seals of the United States navy and army departments stamped on the film (the first time in the history of motion pictures that those seals have appeared on films), all these unusual elements make it what is said to be—"the first big historical motion picture of the World War."

HILLSBORO MAN TO FACE TWO CHARGES

W. N. Davies, Hillsboro, was cited by Sheriff Ohmer Tate to appear in Probate Court at 2 o'clock Monday afternoon to answer to charges of reckless driving and failing to stop in case of an accident.

Authorities allege that Davies drove on without stopping after his auto had side-swiped that of W. G. Lowry, Dayton, at the foot of Lucas hill on the Dayton-Xenia Pike at 1 a. m. Sunday.

A passing motorist, who saw the accident, chased Davies and overtook him in front of the Greene County Infirmary.

Davies was driving east and Lowry in the opposite direction when the accident occurred. No one was injured but two fenders on Lowry's car were torn loose from the running board and the hub cap was also damaged. Davies asserted that the reason he continued without stopping was because he was unaware that his car had sideswiped that of Lowry.

STOP BAD BREATH

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do what which dangerous colic does without any of the bad after effects.

Olive Tablets bring no griping, pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after 20 years of practice among patients afflicted with bowel and liver complaint, with attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take nightly for a week and note the effect. 15c, 30c, 60c. All Druggists.

BIBLE THOUGHT FOR TODAY

OUR GOD — Ye my flock, the flock of my pasture, are
men, and I am your God, saith the Lord God.—Ezekiel 34:31.

AVOIDING CONGRESSIONAL TANGLES

The failure of the farm leaders in congress to discover Mr. Hoover's personal ideas on legislative farm aid is taken to indicate that the President, while not unwilling to discuss prospective legislation brought to him by party leaders, will maintain the constitutional relationship existing between the executive and the national legislature. There will be no writing of bills in the White House for the present congress to pass or reject. The legislative branch of the government will be expected to initiate and assume responsibility for its legislation. This is not only a proper, but also a discreet position for the President to adopt. Congressmen and senators who don't know what they want may be embarrassed by it; but the executive will be saved the embarrassment that usually has followed anything that looked like an invasion of the constitutional prerogatives of the congress. The possibility of another "war" between the White House and the capitol is thus diminished.

This decision springs perhaps as much from Mr. Hoover's understanding of the parliamentary system and the objections to mixing it with the American system of divided responsibility, as from a desire to avoid the friction likely to be excited by seeming to overstep the bounds of executive function. The President of the United States is not a legislative leader, as the prime minister of the United Kingdom is. The influence he can exert on legislation in the making is not inconsiderable; but it is increased rather than diminished by a discretion that, while jealously guarding the executive prerogative, abstains as rigidly from impinging on the rights and privileges of the congress.

NO REASON FOR FUSS

The international tempest stirred up by the sinking of the Canadian schooner I'm Alone by a United States coast guard boat is hardly justified by the facts of the case.

This particular craft has long been a notorious smuggler. For nearly five years it has done nothing but violate the United States laws, operating under Canadian registry, and obtaining false clearance papers from British ports in the West Indies. The smuggling activities have been brought to the attention of the British authorities several times.

The smugglers who infest the southern waters adjacent to the United States are little better than pirates. Their sole aim is the smuggling of liquor and narcotics into the United States with an occasional load of aliens who are trying to beat the law. It makes little difference whether one believes in prohibition or not. The fact remains that these buccannery are a bad gang; they do not hesitate to shoot and now that they are in trouble they are seeking protection under a foreign flag. Great Britain is ready at all times to defend any of its citizens engaged in legitimate business enterprises, but this was not a legitimate enterprise. It was conceived to break the laws of a friendly country. Great Britain in the old days did a great deal to rid the seas of the pirates that infested it. It should not complain when the United States takes a hand in eliminating these modern pirates."

Your BROADWAY And Mine

By Walter Winchell

NEW YORK.—Far be it from us to get sentimental about him. The irony of it rates a paragraph, however. He tended door at a night club for two years and always cautioned the Broadway pale faces (night club reporters) about getting enough fresh air.

"You fellows sit in all that smoke and dissipate something terrible," he once said. "I don't see how you stand it. Now take me. I stand out in the air all the time and have never even seen the show inside."

They took this harmless fellow to a tubercular camp last week, and the night club reporters (Heaven knows) may go on and on and on, thinking up mean things to say about people in the papers.

That a new wrist watch is on the market which is self-winding, the natural moving of the arm keeping it running.

That Ziegfeld, who knows more beautiful women than any other man in the world, is so wrapped up in his art that the carries silk hosiery and bits of silk and satin in his pockets.

DELIGHT IN DISORDER

A SWEET disorder in the dress Kindles in clothes a wantonness:

A lawn about the shoulders thrown
Into a fine distraction;
An erring lace, which here and there
Enthralled the crimson stomacher;
A cuff neglectful, and thereby
Ribbons to flow confusedly;
A winning wave, deserving note,
In the tempestuous petticoat;
A careless shoe-string, in whose tie
I see a wild civility;
Do more bewitch me than when art
Is too precise in every part.

—Robert Herrick (1591-1633)

THINGS I NEVER KNEW TILL NOW

That Mrs. Graham Fair Vanderbilt, widow of Wm. K. Vanderbilt, never was seen in a public place with her grown son until a week or so ago.

That an immediate cure for a hangover is vanilla ice cream crushed into half a glass of cream soda.

That Warner Brothers and other moon pitcher companies haven't made a silent flicker for a year, and that the Fox publicity department happens to be smarter than some of the local editors who are starving for page-one news.

That Texas Guinan, who calls everybody "Hello, Sucker!" fainted on blue Monday after dropping \$30,000 in the Wall Street horror. Tee-hee.

That Captain Churchill, whose Broadway rendezvous was "the spot" until three months after

The Way of the World

BY GROVE PATTERSON

THE BRAIN TEAM

Harvard and Yale, departing a bit from athletics for the moment, recently put on a brain contest. Harvard was victorious over Yale in an English literature test. Now Harvard challenges all comers. Newspaper humorists and others will have a lot of fun over this, but it is good, serious news just the same. As the years go on, and people become wiser, there will be more intellectual contests between college teams.

CHEATING

An income tax counsellor in Hollywood, helping some wealthy folk to make fraudulent tax returns, is caught by the government. This brings up the question of the never-ending attempts of people of all sorts from paying their just taxes. A man who would not cheat another man will think he is smart if he can cheat the government. And yet, the government is just a number of men banded together for the common good.

KELLOGG'S JOB

Belgium accepts the Kellogg pact. Mr. Kellogg, secretary of state in the Coolidge administration, who has been holding over for a few weeks in the Hoover administration, has the satisfaction of seeing his great achievement practically completed. Few important nations now remain outside the arbitration agreement. Mr. Kellogg, becoming secretary of state, had an aim. He set out to achieve a definite thing. By persistence he succeeded. No man is fit for high office unless he has a definite purpose in view—unless he has imagination to see that there is something definite to be done that he may be able to do. And then he must be willing to pay the price of doing it.

Who's Who in Timely Views

SUSTAINED PROSPERITY FORECAST

By GEN. W. W. ATTERBURY

President, Pennsylvania Railroad

(William Wallace Atterbury was born at New Albany, Ind., 31, 1866. He is a graduate of Yale university, and holds three honorary degrees. He began his career as an apprentice in the Altoona shops of the Pennsylvania railroad in 1886, and gradually climbed to the office of president, to which he was elected in 1925. In 1917 he was in charge of the erection of the United States military railroads in France during the World war, and was commissioned brigadier general. He has received several decorations from foreign countries, and has been awarded the Distinguished Service Medal.)

The business and industrial situation throughout the United States is satisfactory and indications are that it will be sustained. I do not hesitate to say that I have never seen the country in as uniformly good condition as it is today. How we cross the country east of the Mississippi and north of the Potomac, and almost without exception our industries throughout that entire section are working 90 to 95 per cent. This is true not only of the large steel companies, but of the independents.

Cement for instance, is really a function of the general business of the country. I mean, if business keeps good, cement is good. The cement industry as a whole has plenty to do.

The question of prices is a different thing. The price of cement is entirely controlled by the price of the imports. Cement, in any case, is a by-product; so with the steel industry.

I should think cement and the textile industries require a high tariff. But this will have to be left to the committees of congress. Textiles are picking up. In New England they are getting back on the map.

I think Mr. Hoover's policies have made a profound impression on industry and the business of the country.

Of course, it is to be regretted that there are violent fluctuations in money rates. That always disturbs industry. If the problem of how to avoid these wide fluctuations could be solved, it would stabilize business.

HANDS ACROSS THE SEA!

How to Achieve Beauty

BY MME. HELENA RUBINSTEIN

I am often asked what kind of care is best for the naturally curly hair, and my answer is usually just "health care." Of course every head of hair should be given the care necessary to keep it healthy, but the problems of the naturally curly hair are often no less difficult than the problem of the woman whose hair is straight! Curly hair, kept clean and healthy, is nearly always attractive. Whether or not it is thick, it looks thicker than it is, because it stands out from the head. And it is so easily draped and it catches the light so becomingly, and has such charming movements of its own, that the simplest of care is enough to keep it perfectly lovely.

Curly hair differs from straight hair structurally. Straight hair is perfectly round, but curly hair, because it is inclined to be oval or elliptical. The more oval it is, the more curly it appears. It is hair that twists under an uneven tension. And this simple, natural twist that it takes is the magic that makes women sigh and long to possess it.

Oil treatments and shampoos are especially good for curly hair, because it must be kept well lubricated to prevent it from breaking and splitting at the places where the hair twists to form a curl. This is true, also, of permanently waved hair. Vigorous brushing and combing often cause it to break off and split. For this reason a coarse-toothed rubber comb is the best type of comb to use. And in brushing, it is wisest to use the brush turned on its side as it touches the hair or scalp, rolling it out to its full surface as the stroke continues.

In drying curly hair after a shampoo, be sure never to use artificial or intense heat. Sunlight and warm outdoor air are the best dryers. But when it is necessary to dry the hair indoors, do not dry it over a heater. Use warm, soft Turkish towels, and rub it gently until all the moisture is absorbed.

Dry heat and hot irons are likewise to be avoided in emphasizing the curl of curly or permanently waved hair. Never go over the waves with an iron to "set" or deepen them. The most satisfactory way to bring out the curl or to emphasize it is to use steam. Hold the hair over a steaming kettle and see how quickly it twists into its prettiest ringlets! Or after a shampoo, before drying the hair, wrap towels freshly wrung out in hot water around the head and let the steam work on the hair to curl it. This will bring some degree of curl into any hair that has the slightest tendency toward it. Often women who have considered their hair to be straight have discovered a possibility of curliness through steaming.

Before the hair is completely dry, push or place the waves into place with the fingers. Whether the hair has its own natural wave, or whether the wave has been achieved through a permanent, this care is necessary to shape it. Many women use combs to set the waves, but a finger-set wave is generally more natural and more becoming, and gives a more flat and fashionable effect.

Behind the Scenes in Washington

By CHARLES P. STEWART

WASHINGTON.—The trend of our times toward a prodigious concentration of power and wealth in the hands of a few—

It is simply a chapter in the story of the evolution of the American people—a chapter which it was inevitable should be included in the book—fate being its author—and will it turn out happily for any of us—at the end of the volume?

The present chapter, says Senator William H. King of Utah, need not have been included as it is being written—we could have changed it—and the story of today, carried to its logical conclusion, cannot end happily.

"Nearly 40 years ago," continued the Utah senator, "far-seeing public men already sensed the danger in the development of the trusts of their own generation—young trusts then—and tried to check it."

"The movement proved too strong for them, and broke down the barriers of the Sherman law and the Clayton act."

"The prophets were without honor in their own country."

"So now—we have mass production rampant—consolidation of industries—amalgamation of banks—the chair store—competition dying—surrender to the rule of the mighty."

"We are unprecedently prosperous, yes," agreed the senator. "But what is a nation profited, if it shall retain the whole world, and lose its own soul?"

"Though prosperity is good, it is not the only or the highest good."

"It is dearly bought, at the sacrifice of the moral, the spiritual and the cultural. It is a bad bargain, at the cost of individualism and independence."

"Our forefathers' creed was freedom."

"However desirable in itself, material prosperity is a poor substitute for lofty ideals, an abiding faith in democracy and a steadfast determination to uphold the principle of diffusion of power."

"No enduring government or civilization," said the Des Moines State lawmaker, "ever was built on business conquest."

"It is a unstable foundation. We have glorified mass production."

"We boast of the tremendous markets it has created, because of its economies and the cheapness of its wares."

"In the long run it will not prove cheap—to the consumer."

"Why not? For the reason that it inevitably implies monopoly. Monopoly invariably brings high prices—ultimately."

"Twenty-five years hence, at the present rate of our national transformation," predicted the Utah solon, "most of America's wealth will be controlled by a very few—perhaps 99 per cent. of it. Of course, the same few will

Diet and Health

BY LULU HUNT PETERS, M.D. AUTHOR OF "DIET AND HEALTH" AND "DIET FOR CHILDREN"

Ingrown Nails.

"I am in great trouble and need your help, so please give it to me, Doctor Lulu. I am 13 years old and wear size 8 shoes, and am very much overweight. But the greatest trouble is that I have ingrown toe nails. I had one taken off, but in about two months it grew back ingrown again, and it is just about as bad as it was before. Please tell me all you can about these nails, because I think I am very young to have such trouble as this."

MARGERY.

Indeed you are too young to have ingrown toe nails, Margery. Everyone is too young to have them, for that matter.

Ingrown toe nails are usually due to shoes that are too short or too narrow. Occasionally the toe nail will grow in abnormally deep after it has gotten started, even though the shoes are all right, and the only thing that can be done is an operation which removes the part of the toe containing the nail, as well as the nail. You would have to see a surgeon for this.

The home treatment is as follows:

Soak the foot in hot, soapy water, separate the nail as far as possible, and dust with boracic acid powder or apply ichthyol ointment. Better insert a little strip of absorbent cotton or lint. If there is pus formed, it's a good idea to wash out the spot with peroxide of hydrogen before putting in the medication and cotton. Strain the toe with one-half inch adhesive strap in the following manner:

Fasten one end of the strap on the overlapping fold in such a manner that you can pull the adhesive around under the toe and so pull the overlapping fold away from the nail. Carry it way

around and over the nail so that it will overlap where you started and so hold the medication and cotton.

Cutting the toe nails straight across, instead of round, is thought to prevent the formation of ingrown toe nails. But it won't if shoes that are too tight are worn. (If you do cut the nails straight across, round off the sharp corners with a nail file.)

You should reduce your weight, Margery. You are losing the good times of girlhood when you are so much overweight, besides losing your resistance to infectious diseases. Children can reduce, and it is just as important for them to do so, if noticeably overweight, as it is for adults. If you will send for the reducing pamphlet, that will get you started. Don't be too ambitious in your reducing, for as you grow taller, that will slim you out considerably.

"I am very anemic and am very irregular with my periods, sometimes going for five or six months without them. I am normal weight, but am inclined to be fat. Some people tell me it is from sitting all day without some support. Is this true?"

It is not unusual in anemic conditions for the periods to be scanty and irregular. B.

Yes, fat does seem to be deposited around the hips when one sits a good deal, and the thin girl to combat that exercise. Will you write for our articles on Anemia and the Hygiene of Women, also for the article on the Atonic Abdominal Wall, which gives the exercises?

Tomorrow: False and Pernicious Information.

Living and Loving

BY MRS. VIRGINIA LEE

"DEAR VIRGINIA LEE: I have been reading your column for some time. I thought I would write and ask for your advice. I am a girl of 17 and am an and a bit of an old-fashioned. They don't care about me going with boys. My aunt likes the fellow I go with but my uncle talks as if he was a deg. He has said many times that if I don't stop going with boys he was going to put me out in the streets. My aunt is very hard to please. No matter what I do she will say something to say. I have said two or three times that I was going to run off and stay with some of my other relations. Will be thankful for any advice."

E. E. C.

Faithful people are hard to live with, I know. Sometimes one's own father and mother seem or yard to please, so that it is not an unusual situation, and the fact that they are not your own parents makes them feel that you owe them something for giving you a home. I presume, and they have a right to try to keep you in line. You might be much more unhappy, dear, and I would advise you to make the best of things until you are a bit older—18 or more—and then branch out for yourself. If you get out "on your own," you may find yourself very glad to get back to them.

"DEAR VIRGINIA LEE: I am a high school girl. I have gone with a boy for about two years and he has been almost a year and a half. He is jealous of me and expects me to go with no one but him. I think this is silly and have tried to show him that, but he says he won't be any girl's second. Won't you please advise me? I think it would be much nicer to have a lot of friends and not be so selfish. I have heard that the children of school and high school age will soon dispose of a batch of light potato doughnuts."

Today's Recipes

Glorified Beef Steaks—Cut beef in pieces, dredge with a little flour, fry until brown in iron kettle, add enough water to just cover and simmer until almost tender, add sufficient water to cover the vegetables; add whole onions, enough for each person, and a few more, potatoes, carrots, a can of tomato soup and parsley. When done thicken with flour and at the last moment add a can of peas.

Baked Macaroni—Italian Style—Fry a large onion in olive oil until a light brown add to boiled macaroni in which a heaping tablespoon of Italian paste or well seasoned, cooked and strained tomatoes has been blended. Put in casserole, cover with strips of bacon and bake until brown.

Potato Doughnuts—Three medium sized potatoes mashed while hot, one and one-fourth cups sugar, two eggs, one-half cup milk, one-half teaspoon nutmeg, two and one-half cups flour, two and one-half teaspoons baking powder, one-half teaspoon salt. Mix ingredients in order given, place on floured board, cut and fry in deep, hot fat until brown.

Suggestions

Important Trifles

Potatoes should be cooked in their skins or pared very thin, because much of the valuable mineral matter lies close to the skin and is lost if the parings are thick.

WILL FINISH END OF HAM AND NUT SALAD

(Mrs. Mary Morton's Daily Tested Recipe)—One and one-half cups diced boiled ham, one-fourth cup almonds or peanuts, cut in pieces. Serve on lettuce with mayonnaise dressing.

Net is an important material in wedding gowns and bridesmaids dresses.

LIVING AND LOVING ...

EMMA F.: No one but myself read your letter, and as it was too long to print, I thought I would just give the answer. The Lord only knows what certain men see in certain women, and vice versa. Maybe the fact that she likes and flatters him has something to do with it—all in fact. What can a wife do under the circumstances? Leave him! Tell him that if he prefers such a woman to you, you will leave the field to him. How well do you love him? Enough to stand by until he "comes to"? What is best for him? Could you bring yourself to be friendly with her enough to invite her to your home and let him see the difference between you? Or ask him to introduce you to her, so you can know his "friends"? I agree with you that "doing and saying what you please because you can deny it," is a pretty poor policy to follow. As a matter of fact, one can't keep on denying words and actions and "get away with it." Sooner or later one will live to regret both. Animals are frankly higher intelligence, but human beings should use their intellects and exercise self-control, if necessary. You are sure of your facts are you not? The woman may be pursuing him without any encouragement to speak of, you know. Don't make yourself unhappy and lose your home without absolute proof.

DINNER STORIES

HOLD-OUTS

Two Scotchmen took dinner together in a restaurant, and after the meal, the waiter brought the check. The two men looked at it for a couple of hours, after which the conversation failed and they merely smoked in silence. At 1 a m. one of them got up and "phoned his wife. "Dinna wait you any longer for me, lass," he said, "it looks like a leadclock."

STYLE WHIMSIES

Fitted waist and capelines are approved broad both day and evening frocks.

Now we have the wrap-around petticoat.

The tailored type of straw hats are in demand this season.

Feminine touches are used on the most tailored of suits this year.

Peter's Adventures

BY MRS. FLORENCE SMITH VINCENT

THE CLOUDS AND THE STARS PLAY HIDE AND SEEK

"What a night! Lucky for me if I have any breath left by the time I get to the porch. I wish I could meet one of those Ducks now! They thought they were such good weather prophets—both of them were so sure there was going to be a storm, and after all I was right. The wind is having things all its own way."

"It looks to me as though the clouds were playing tag! There goes the little one with a large one close behind."

"Hurrah, the tiny fellow is so far ahead that his brother will never catch up to him now. There come the stars! I don't blame them a bit! Why should they stay under cover when the clouds are having such fun! They can't very well play tag, but they can join in a game of hide and seek."

"Pon! How bright is that one peeping from behind the tail of that little cloud. Where has it gone? Oh, I know! It's right under the pursuing cloud. Un-

less I miss my guess it will not stay out of sight long, though—just long enough to tease its comrades who are looking for it. Ah, I thought so! There it is, twinkling just as merrily as ever."

"Gee, whillikens! I wish I was a star. I'll bet they never have a dull time of it."

"Honk! Honk! You Two-Legs don't know what a dull time it! Nobody makes you stay inside a fence when you want to go out, nor clips your wings so that you have to walk on the ground when you are longing to fly in the air!"

Peter was walking along by the barnyard fence, and startled by this voice in the darkness he backed hastily away, for he didn't expect any of the folks who lived there to be up this late.

Yet unless he was very much mistaken, that was the voice of Papa Gander himself. What in the world could be the matter with the fellow? Gander was usually good natured, but tonight he sounded much put out about something.

BIBLE THOUGHT FOR TODAY

OUR GOD — Ye my flock, the flock of my pasture, are
men, and I am your God, saith the Lord God.—Ezekiel 34:31.

AVOIDING CONGRESSIONAL TANGLES

The failure of the farm leaders in congress to discover Mr. Hoover's personal ideas on legislative farm aid is taken to indicate that the President, while not unwilling to discuss prospective legislation brought to him by party leaders, will maintain the constitutional relationship existing between the executive and the national legislature. There will be no writing of bills in the White House for the present congress to pass or reject. The legislative branch of the government will be expected to initiate and assume responsibility for its legislation. This is not only a proper, but also a discreet position for the President to adopt. Congressmen and senators who don't know what they want may be embarrassed by it; but the executive will be saved the embarrassment that usually has followed anything that looked like an invasion of the constitutional prerogatives of the congress. The possibility of another "war" between the White House and the capitol is thus diminished.

This decision springs perhaps as much from Mr. Hoover's understanding of the parliamentary system and the objections to mixing it with the American system of divided responsibility, as from a desire to avoid the friction likely to be excited by seeming to overstep the bounds of executive function. The President of the United States is not a legislative leader, as the prime minister of the United Kingdom is. The influence he can exert on legislation in the making is not inconsiderable; but it is increased rather than diminished by a discretion that, while jealously guarding the executive prerogative, abstains as rigidly from impinging on the rights and privileges of the congress.

NO REASON FOR FUSS

The international tempest stirred up by the sinking of the Canadian schooner I'm Alone by a United States coast guard boat is hardly justified by the facts of the case.

This particular craft has long been a notorious smuggler. For nearly five years it has done nothing but violate the United States laws, operating under Canadian registry, and obtaining false clearance papers from British ports in the West Indies. The smuggling activities have been brought to the attention of the British authorities several times.

The smugglers who infest the southern waters adjacent to the United States are little better than pirates. Their sole aim is the smuggling of liquor and narcotics into the United States with an occasional load of aliens who are trying to beat the law. It makes little difference whether one believes in prohibition or not. The fact remains that these buccaners are a bad gang; they do not hesitate to shoot and now that they are in trouble they are seeking protection under a foreign flag. Great Britain is ready at all times to defend any of its citizens engaged in legitimate business enterprises, but this was not a legitimate enterprise. It was conceived to break the laws of a friendly country. Great Britain in the old days did a great deal to rid the seas of the pirates that infested it. It should not complain when the United States takes a hand in eliminating these modern pirates.

Your BROADWAY
By Walter Winchell And Mine

NEW YORK.—Far be it from us to get sentimental about him. The irony of it rates a paragraph, however. He tended court at a night club for two years and always cautioned the Broadway pale faces (night club reporters) about getting enough fresh air.

"You fellows sit in all that smoke and dissipate something terrible," he once said. "I don't see how you stand it. Now take me. I stand out in the air all the time and have never even seen the show inside."

They took this harmless fellow to a tubercular camp last week, and the night club reporters (Heaven wills) may go on and on and on, thinking up mean things to say about people in the papers.

That a new wrist watch is on the market which is self-winding, the natural moving of the arm keeping it running.

That Ziegfeld, who knows more beautiful women than any other man in the world, is so wrapped up in his art that the carries silk hosiery and bits of silk and satin in his pockets.

DELIGHT IN DISORDER

A SWEET disorder in the dress

Kindles in clothes a wantonness:

A lawn about the shoulders

thrown

Into a fine distraction;

An erring lace, which here and there

Enthral the crimson stomacher:

A cuff neglectful, and thereby

Ribbons to flow confusedly:

A winning wave, deserving note,

In the tempestuous petticoat:

A careless shoe-string, in whose tie

I see a wild civility;

Do more bewitch me than when art

Is too precise in every part.

—Robert Herrick (1591-1634)

That Texas Guinan, who calls everybody "Hello, Sucker!" faints on blue Monday after dropping \$30,000 in the Wall Street horror. Tee-hee.

That the Fox public department happens to be smarter than some of the local editors who are starving for page-one news.

The Way
of the
World

THE BRAIN TEAM

Harvard and Yale, departing a bit from athletics for the moment, recently put on a brain contest. Harvard was victorious over Yale in an English literature test. Now Harvard challenges all comers. Newspaper humorists and others will have a lot of fun over this, but it is good, serious news just the same. As the years go on, and people become wiser, there will be more intellectual contests between college teams.

CHEATING

An income tax counselor in Hollywood, helping some wealthy folk to make fraudulent tax returns, is caught by the government. This brings up the question of the never-ceasing attempts of people of all sorts from paying their just taxes. A man who would not cheat anything, man will think he is smart if he can cheat the government. And yet, the government is just a number of men banded together for the common good.

KELLOGG'S JOB

Belgium accepts the Kellogg pact. Mr. Kellogg, secretary of state in the Coolidge administration, who has been holding over for a few weeks in the Hoover administration, has the satisfaction of seeing his great achievement practically completed. Few important nations now remain outside the arbitration agreement. Mr. Kellogg, becoming secretary of state, had an aim. He set out to achieve a definite thing. By persistence he succeeded. No man is fit for high office unless he has a definite purpose in view—unless he has imagination to see that there is something definite to be done that he may be able to do. And then he must be willing to pay the price of doing it.

TELLING THE PEOPLE

The expense of the Republican national committee for the campaign and for the Democratic national committee was about \$5,000,000 each. Those are large figures, but it is money well spent if it resulted in creating a greater interest on the part of the people in national affairs and in the governing of our democracy. The suggestion has been made that campaigns occupy too much time in a presidential year. Almost everybody would welcome a shorter campaign period. If the same amount of information about candidates and issues could be spread abroad in less time. This ought to be possible with the increasing use of the radio and the more widely distributed publicity. But there should not be shortening of any major political campaign at the expense of a decreased amount of publicity.

Who's Who
Timely ViewsSUSTAINED PROSPERITY
FORECAST

By GEN. W. W. ATTERBURY
President, Pennsylvania Railroad
(William Wallace Atterbury was born at New Albany, Ind., Jan. 31, 1866. He is a graduate of Yale University, and holds three honorary degrees. He began his career as an apprentice in the Altoona shops of the Pennsylvania railroad in 1886, and gradually climbed to the office of president, to which he was elected in 1925. In 1917 he was in charge of the erection of the United States military railroads in France during the World War, and was commissioned brigadier general. He has received several decorations from foreign countries, and has been awarded the Distinguished Service Medal.)

The business and industrial situation throughout the United States is satisfactory and indications are that it will be sustained. I do not hesitate to say that I have never seen the country in as uniformly good condition as it is today. Now we cross the country of the Mississippi and north of the Potomac, and almost without exception the industries throughout that entire section are working 90 to 95 per cent. This is true not only of the large steel companies, but of the independents.

Cement for instance, is really a function of the general business of the country. I mean, if business keeps good, cement is good. The cement industry as a whole has plenty to do.

The question of prices is a different thing. The price of cement is entirely controlled by the price of the imports. Cement, in any case is a by-product; so with the steel industry.

I should think cement and the textile industries require a high tariff. But this will have to be left to the committees of congress. Textiles are picking up. In New England they are getting back on the map.

I think Mr. Hoover's policies have made a profound impression on industry and the business of the country.

Of course, it is to be regretted that there are violent fluctuations in money rates. That always disturbs industry. If the problem of how to avoid these wide fluctuations could be solved, it would stabilize business.

HANDS ACROSS THE SEA!

How to Achieve Beauty

BY MME. HELENA RUBINSTEIN
I am often asked what kind of care is best for the naturally curly head, and my answer is usually just "health care." Of course every head of hair should be given the care necessary to keep it healthy, but the problems of the naturally curly head are often no less difficult than the problem of the woman whose hair is straight! Curly hair, kept clean and healthy, is nearly always attractive. Whether or not it is thick, it looks thicker than it is, because it stands out from the head. And it is as easily draped and it catches the light so becomingly, and has such charming movements of its own, that the simplest of care is enough to keep it perfectly lovely.

Curly hair differs from straight hair structurally. Straight hair is perfectly round in a cross-section, while curly hair is inclined to be oval or elliptical. The more oval it is, the more curly it appears. It is hair that twists under an uneven tension. And this simple, natural twist that it takes is the magic that makes women slick and long to possess it. Oil treatments and shampoos are especially good for curly hair, because it must be kept well lubricated to prevent it from breaking and splitting at the places where the hair twists to form a curl. This is true, also, of permanently waved hair. Vigorous brushing and combing often cause it to break off and split. For this reason a coarse-toothed rubber comb is the best type of comb to use. And in brushing, it is wisest to use the brush turned on its side as it touches the hair or scalp, rolling it out to its full surface as the stroke continues.

Before the hair is completely dry, push or place the waves into place with the fingers. Whether the hair has its own natural wave, or whether the wave has been achieved through a permanent, this care is necessary to set the waves, but a finger-set wave is generally more natural and more becoming, and gives a more flat and fashionable effect.

Behind the Scenes in
Washington

By CHARLES P. STEWART

WASHINGTON.—The trend of our times toward a prodigious concentration of power and wealth in the hands of a few—

It is simply a chapter in the story of the evolution of the American people—a chapter which it was inevitable should be included in the book—fate being its author—and will it turn out happily for all of us—at the end of the volume?

The present chapter, says Senator William H. King of Utah, need not have been included, and it is being written—we could have changed it—and the story of today, carried to its logical conclusion, cannot end happily.

"Nearly 40 years ago," continued the Utah senator, "I saw the danger in the development of the trusts of their own generation—young trusts then—and tried to check it."

"The movement proved too strong for them, and broke down the barriers of the Sherman law and the Clayton act."

"The prophets were without honor in their own country."

"So now—we have mass production rampant—consolidation of industries—amalgamation of banks—the chair store—competition dying—surrender to the rule of the mighty."

"We are unprecedently prosperous, yes," agreed the senator. "But what is a nation profited if it shall learn the whole world

wield all the power.
"The middle class will have disappeared completely, as a factor for worth consideration. The middle man is fast vanishing already."
"The masses will be hewers of wood and drawers of water."

And revolutions reputedly never go backward.
Senator King nodded—acquiescently, if pessimistically.
"Well," he remarked, "Rome grew great—and decayed."
"This republic is not necessarily immortal."

Household Hints

BY MRS. MARY MORTON

MENU HINT

BREAKFAST

Oatmeal Country Sausage Prunes

Buttermilk Pancakes with Maple Syrup Milk

Toast Coffee

DINNER

Glorified Beef Stew Cole Slaw

Whole Wheat Bread Rhubarb Pie or Junket

SUPPER

Macaroni Italian Style, with Strips of Bacon

Shredded Lettuce with Onions

French Dressing Cheese

Nut Bread Cottage Cheese

Current Jelly Tea

This menu was planned, needless to say, for people who work out of doors a good share of the time, doing active work, too—not merely playing golf, although it too, works up a good appetite. The potato doughnut recipe is put on for good measure. The children of school and high school age will soon dispose of a batch of light potato doughnuts.

Today's Recipes

Glorified Beef Stew—Cut beef in pieces, dredge with a little flour, fry until brown in iron kettle, add enough water to just cover and simmer until almost tender, add sufficient water to cover the vegetables; add whole onions, enough for each person and a few more, potatoes, carrots, a can of tomato soup and parsley. When done thicken with flour and at the last moment add a can of peas.

Baked Macaroni—Italian Style—Fry a large onion in olive oil until light brown add to boiled macaroni in which a heaping tablespoon of Italian paste or well seasoned, cooked and strained tomatoes have been blended. Put in casserole, cover with strips of bacon and bake until brown.

Potato Doughnuts—Three medium sized potatoes mashed while hot, one and one-fourth cups sugar, two eggs, one-half cup milk, one-half teaspoon nutmeg, two and one-half cups flour, two and one-half teaspoons baking powder, one-half teaspoon salt. Mix ingredients in order given, place on floured board, cut and fry in deep, hot fat until brown.

Suggestions

Important Trifles

Potatoes should be cooked in their skins or pared very thin, because much of the valuable mineral matter lies close to the skin and is lost if the parings are thick.

"Will Finish End of HAM HAM AND NUT SALAD"

(Mrs. Mary Morton's Daily Tested Recipe)—One and one-half cups diced boiled ham, one-fourth cup almonds or peanuts, cut in pieces. Serve on lettuce with mayonnaise dressing.

Not an important material in wedding gowns and bridesmaids dresses.

Diet and Health

BY LULU HUNT PETERS, M.D. AUTHOR OF "DIET AND HEALTH" AND "DIET FOR CHILDREN"

Ingrown Nails.
"I am in great trouble and need your help, so please give it to me, Doctor Lulu. I am 13 years old and wear size 8 shoes, and am very much overweight. But the greatest trouble is that I have ingrown toe nails. I had one taken off, but in about two months it grew back ingrown again, and it just about as bad as it was before. Please tell me all you can about these nails, because I think I am very young to have such trouble as this."
MARGERY.

Indeed you are too young to have ingrown toe nails, Margery. Everyone is too young to have them, for that matter. Ingrown toe nails are usually due to shoes that are too short or too narrow. Occasionally the toe nail will grow in abnormally deep after it has gotten started, even though the shoes are all right, and the only thing that can be done is an operation which removes the part of the toe containing the nail, as well as the nail. You would have to see a surgeon for this.

The home treatment is as follows:

Soak the foot in hot, soapy water; separate the nail fold as far as possible, and dust with boric acid powder or apply Ichthylol ointment. Better insert a little strip of absorbent cotton or lint. If there is a pimple formed, it's a good idea to wash out the spot with peroxide of hydrogen before putting in the medication and cotton. Strap the toe with one-half inch adhesive strap in the following manner:

Fasten one end of the strap on the overlapping skin, and pull it around the toe and pull the overlapping fold away from the nail. Carry it way

around and over the nail so that it will overlap where you started and so hold the medication and cotton.
Cutting the toe nail straight across instead of round is thought to prevent the formation of ingrown toe nails. But it won't if shoes that are too tight are worn. (If you do cut the nails straight across, round off the sharp corners with a nail file.)

You should reduce your weight, Margery. You are losing the good times of girlhood when you are so much overweight, besides losing your resistance to infectious diseases. Children can reduce, and it is just as important for them to do so, if noticeably overweight, as it is for adults. If you will send for the reducing pamphlet, that will get you started. Don't be ambitious in your reducing, for as you grow taller, that will slim you out considerably.

"I am very anemic and am very irregular with my periods, sometimes going for five or six months without them. I am normal weight, but am inclined to put weight on around my hips. Some people tell me it is from sitting all day without some support. Is this true?"
It is not unusual in anemic conditions for the periods to be scanty and irregular. B. Yes, fat does seem to be deposited around the hips when one sits a good deal, and the thing to combat that is exercise. Will you write for our articles on Anemia and the Hygiene of Women, also for the article on the Abdominal Wall, which gives the exercises?
Tomorrow: False and Fictitious Information.

Living and Loving

BY MRS. VIRGINIA LEE

"DEAR VIRGINIA LEE: I have been reading your column for some time. I thought I would write and ask for your advice. I am a girl of 17 and my auntie and uncle are old-fashioned. They don't care about me going with boys. My aunt likes the fellow I go with but my uncle talks as if he was a dog. He has said many times that if I don't stop going with boys he was going to put me out in the streets. My aunt is very hard to please. No matter what I do she will have something to say. I have said two or three times that I was going to run off and stay with some of my father's relations. Will be thankful for any advice."
E. E. C.

Faultfinding people are hard to live with, I know. Sometimes one's own father and mother seem to yonder to please, so that it is not an unusual situation, and the fact that they are not your own parents makes them feel that you owe them something for giving you a home. I presume, and they have a right to try to keep you in line. You might be much more unhappy, dear, and I would advise you to make the best of things until you are a bit older—18 or more, and then branch out for yourself. If you get out "on your own," you may find yourself very glad to get back to them.

"DEAR VIRGINIA LEE: I am a high school girl. I have gone with a boy about two years my senior for almost a year and a half. He is jealous of me and expects me to go with no one but him. I think this is silly and have tried to show him that, but he says he won't be any girl's second. Won't you please advise me? I think it would be much nicer to have a lot of friends and not be so selfish."

The second problem is: My boy friend has a chum whom I am very fond of and would like to have a date with him. I don't think he would ask me for a date or try to see me because he knows how my boy friend feels. How can I become further acquainted with his chum and let him know I don't feel tied down to my boy friend?

"WONDERING BETTY?"
Answering your first question, Betty, accept dates with other boys and insist that you won't be tied down to one friend. That will probably solve the second one, too, as if the chum sees you are going out with others he may think it is all right for him to

ask for a date. His present attitude is the only honorable one at present, however.

LIVING AND LOVING

EMMA F.: No one but myself read your letter, and as it was too long to print, I thought I would just give the answer "The Lord only knows what certain men see in certain women, and vice versa. Maybe the fact that she likes and flatters him has something to do with it—all, in fact. What can a wife do under the circumstances? Leave him! Tell him that if he prefers such a woman to you, you will leave the field to her? How well do you love him? Enough to stand by until he "comes to?" What is best for him? Could you bring yourself to be friendly with her enough to invite her to your home and let him see the difference between you? Or, ask him to introduce you to her, as you want to know his "friends?" I agree with you that "going and saying what you please because you can do it" is a pretty poor policy to follow. As a matter of fact, one can't keep on denying words and actions and "get away with it." Sooner or later one will have to repeat both. Animals are frankly honest in their feelings because they have no higher intelligence, but human beings should use their intellect and exercise self-control, if necessary. You are sure of your facts are you not? The woman may be pursuing him without any encouragement to speak of, you know. Don't make yourself unhappy and break up your home without absolute proof.

DINNER STORIES

HOLD-OUTS

Two Scotchmen took dinner together in a restaurant, and after the meal, the waiter brought the check. The two sat and talked for a couple of hours, after which the conversation faded and they merely smoked in silence. At 11 p. m. one of them got up and "phoned his wife, "Dinna wait, you any longer for me, lass," he said, "it looks like a dead-end."

STYLE WHIMSIES

Fitted waists and hip lines are approved abroad both day and evening frocks.

Now we have the wrap-around petticoat.

The tailored type of straw hats are in demand this season.

Feminine touches are used on the most tailored of suits this year.

Peter's Adventures

BY MRS. FLORENCE SMITH VINCENT

THE CLOUDS AND THE STARS PLAY HIDE AND SEEK

"What a night! Lucky for me if I have any breath left by the time I get to the porch. I wish I could meet one of those Ducks now! They thought they were such good weather prophets—both of them were so sure there was going to be a storm, and after all was right. The wind is having things all its own way."

"It looks to me as though the clouds were playing tag! There goes the little one with a large one close behind."

"Hurrah, the tiny fellow is so far ahead that his brother will never catch up to him now. There come the stars! I don't blame them a bit! Why should they stay under cover when the clouds are having such fun! They can't very well play tag, but they can join in a game of hide and seek."

"Pop! How bright is that one peeping from behind the tail of that little cloud. Where has it gone? Oh, I know! It's right under the pursuing cloud. Un-

less I miss my guess it will not stay out of sight long, though—just long enough to tease its comrades who are looking for it. Ah! I thought so! There it is, twinkling just as merrily as ever. "Gee, whilleens! I wish I was a star. I'll bet they never have a dull time of it."

"Honk! Honk! You Two-Legs don't know what a dull time it! Nobody makes you stay inside a fence when you want to go out, nor clips your wings so that you have to walk on the ground when you are longing to fly in the air!"

Peter was walking along by the barnyard fence, and startled by this voice in the darkness he backed hastily away, for he didn't expect any of the folks who lived there to be up this late.

Yet unless he was very much mistaken, that was the voice of Papa Gander himself. What in the world could be the matter with the fellow? Gander was usually good natured, but tonight he sounded much put out about something.

Antioch Defeated In Baseball Opening Tilt

M'LAIN LETS DOWN IN SECOND INNING TO PERMIT VICTORY

Wittenberg Scores All Its Runs In One Stanza

"Mac" McLain, star Antioch College pitcher, experienced only one bad inning, the second, when he was touched for four solid hits, but that was sufficient to accomplish the downfall of Antioch's Division "B" baseball nine, which dropped its season's opener to Wittenberg College, 4 to 2 Saturday afternoon at Zimmerman Field, Springfield.

McLain went the entire route for Antioch and was invincible after the unfortunate second frame in which Wittenberg clustered four hits, including two triples, a double and a home run, for its quartet of tallies.

In the remaining six innings the Antioch hurler pitched safeties all and yielded only seven safeties all together. McLain also struck out seven batters and issued but one base on balls.

Blunt, Wittenberg's starting pitcher, had the visiting nine eating out of the palm of his hand during the six innings he was on the mound. During his administration in the box, Antioch was held to one hit and nary a run.

He surrendered the pitching burden to an understudy in the seventh and Antioch escaped being whitewashed by pushing across a brace of runs in this lucky inning. In this stanza two hits produced as many scores. McLain opened inauspiciously by grounding out to Maurer. Toomire, Antioch catcher, came through with his second hit of the day, a single. Coppock flied out but Roosa, left fielder, crashed out a long home run to deep center. Toomire scoring ahead of him. The rally terminated when Coskery grounded to Maurer.

The damage, however, was accomplished in the second inning by Wittenberg. Baker, first batter, fanned. Keyser banged a triple to left and Kreeger followed with circuit clout to deep center. Blunt kept up with a double down the left field line and scored when Roosa shot a three-bagger to left. Reark struck out, but Morton came home when Coppock in right field dropped a long fly. Antioch's only misplay of the contest.

Antioch was outbatted by the Lutherans, seven blows to four but made one less error than Wittenberg. Toomire collected two of Antioch's four bingles.

Blunt whiffed six batters while he toiled for the Lutheran nine. Schroeder and Miller were his successors on the mound.

Morton, outfielder, was the big noise for Wittenberg at bat. He made three hits, including a triple. No other Wittenberg player made more than one safety. Lineups and summary:

directly with every orange, apple, peach and pineapple we raise in our own orchards and fields.

The remedy for this situation, of course, is a much higher scale of tariff duties, provided we wish and are able to apply it. But even if this were done, we presently find ourselves up against a serious and very puzzling problem: What about imports from Porto Rico and the Philippines?

Here are two island possessions which are a part of our domain, which are inside our national tariff wall, and therefore are not at all affected when we put up a tariff barrier to the imports of foreign farm products.

There is not so much of a problem over Porto Rico, to be sure. Its sales to us are comparatively small, and can be absorbed. But the Philippines are a horse of quite another color.

We buy from the islands a large quantity of raw sugar, and are on the way to buy more if Cuban sugar should increase in price. We buy, besides, a great deal of coconut oil and copra, which is dried coconut. We buy hemp. We buy tobacco. We buy other tropical products in smaller lots.

And every pound of this stuff, excepting perhaps what coconut oil goes into soaps, competes directly with the products of United States farms.

I doubt whether many farmers are particularly interested in Philippine independence as a matter of justice to the Filipinos. Probably a good many think that the islands should never have been taken, but having been taken, may as well be held until the people best qualified to judge say the Filipinos are ready to be turned loose.

But if the idea gets about that Philippine freedom means better prices for our farm products, I would not be surprised to see a general demand that the islands be presented with their independence forthwith, and be deposited gently but firmly outside our tariff walls.

It is interesting to know, too, that that solution of the problem is one that would probably be welcomed by the great majority of the Filipinos themselves.

RESERVES BEAT GRISMER FUELS IN PRACTICE CONTEST SUNDAY

The 1929 baseball season in Xenia was ushered in informally Sunday afternoon when the Xenia Reserve Baseball Club, up to its old tricks, walked away from the Dayton Grismer Fuels by a score of 18 to 2 in a practice game.

Many local fans sat in on the Reserve jubilee.

Reserves experimented with two pitchers and each twirler gave a good account of himself. Dick Wells, late of Bowersville, very much left-handed, took the first turn in the box and worked for five innings, yielding two hits and one earned run. Russ Payton succeeded him in the sixth and finished out the contest, being touched also for two hits and one earned tally in four innings.

Reserves were in a hitting mood and pounded out safeties to all corners of the lot, Durnbaugh, "Wu" Fang" Ward and Sam Tangeman each contributed triples, the longest hits of the matinee.

The local nine lined up with Mike Weller behind the plate, Tangeman on first, Ward at second, "Minnie" Fisher at shortstop, Cyphers at third, Joe Anderson and Allen alternating in right field, Durnbaugh in center and Johnson and Jones dividing duty in left field.

One more practice contest will be played before the regular season is formally inaugurated Sunday, April 21. Next Sunday the Reserves will play the Shroyer Cubs of Dayton at Washington Park at 2:30 p. m. The Cubs gave evidence of strength by defeating the Middletown Armco's 6 to 4 Sunday afternoon. No admission will be charged for this contest.

Club members have now decided to keep a close watch in order to safeguard against a repetition. It is warned that the road leading from the Springfield Pike to the club is a private drive, reserved for use of members only and that outsiders are not supposed to drive along it.

Held in Abduction

Curtis D. Devonshire of Philadelphia, Pa., is being held after his arrest in Charlotte, N. C., where he was picked up with Alice Labutis, aged 12, invalid Philadelphia girl. He was trapped when he called for a telegram which he believed contained money for him and calls the strange abduction "a vagary of an alcoholic mood."

BELIEVE WOMAN MAY HAVE ASSISTED IN BURGLARY OF SHOP

Police are looking for "the woman in the case" following a report by Jacob Kany, member of City Commission, that his tailoring shop at 12 1/2 N. Detroit St. was entered by thieves sometime Friday night.

The intruders climbed on the roof and pried open a rear window to gain entrance to the Eleanor S. Dimmitt beauty shop at 10 1/2 N. Detroit St. Without touching anything in the beauty shop, they unlocked a door and reached the locked door leading to the tailor shop.

Instead of forcing open the door, they removed a large, thick pane of glass and stood it in the corner. Commissioner Kany found his desk ransacked but nothing of value taken. A safe in the office was not tampered with.

The commissioner recalled that a robbery of his shop about a year ago netted the thieves more than \$50 in cash.

Patrolman Fred Jones investigated and uncovered the print of a woman's shoe, indicating that a woman was also involved in the attempted robbery.

The pane of glass was not damaged and Kany said that "next time I'll leave the front door open."

IMPEACHMENT OF JURIST STARTED

SACRAMENTO, Calif., April 8. — Aimee Semple McPherson and her now famous "surf-to-sand" kidnapping held the center of interest today as the impeachment trial of Judge Carlos S. Hardy of Los Angeles opened before the state senate.

Judge Hardy stood accused of obstructing justice in the investigation of Mrs. McPherson's kidnapping story, accepted a \$2,500 check from her for legal services and attempting to intimidate Wallace Moore, Santa Barbara newspaper man, who thought he saw the evangelist riding with Kenneth Ormiston during the time she was missing from Los Angeles and thousands of her church members searched for her.

National Farm Outlook

By ARTHUR H. JENKINS
Editor The Farm Journal
Published by Special Arrangement of Central Press and The Gazette With The Farm Journal

If freeing the Philippine Islands would be a good stroke of business for the United States farmers, let us turn them loose forthwith.

That is the newest development in Philippine affairs and this is how it has come up.

A part of the grievance that farmers have against the rest of the population is that they get no help at least not enough help from the protective tariff.

We import from the rest of the world an enormous volume of agricultural products. A large proportion of these compete directly or indirectly with the products of our own farms.

Corn from Argentina, for example, competes directly with our own, along the Atlantic and Pacific coasts.

We grow no bananas here, but nevertheless bananas compete in

directly with every orange, apple, peach and pineapple we raise in our own orchards and fields.

The remedy for this situation, of course, is a much higher scale of tariff duties, provided we wish and are able to apply it. But even if this were done, we presently find ourselves up against a serious and very puzzling problem: What about imports from Porto Rico and the Philippines?

Here are two island possessions which are a part of our domain, which are inside our national tariff wall, and therefore are not at all affected when we put up a tariff barrier to the imports of foreign farm products.

There is not so much of a problem over Porto Rico, to be sure. Its sales to us are comparatively small, and can be absorbed. But the Philippines are a horse of quite another color.

We buy from the islands a large quantity of raw sugar, and are on the way to buy more if Cuban sugar should increase in price. We buy, besides, a great deal of coconut oil and copra, which is dried coconut. We buy hemp. We buy tobacco. We buy other tropical products in smaller lots.

And every pound of this stuff, excepting perhaps what coconut oil goes into soaps, competes directly with the products of United States farms.

I doubt whether many farmers are particularly interested in Philippine independence as a matter of justice to the Filipinos. Probably a good many think that the islands should never have been taken, but having been taken, may as well be held until the people best qualified to judge say the Filipinos are ready to be turned loose.

But if the idea gets about that Philippine freedom means better prices for our farm products, I would not be surprised to see a general demand that the islands be presented with their independence forthwith, and be deposited gently but firmly outside our tariff walls.

It is interesting to know, too, that that solution of the problem is one that would probably be welcomed by the great majority of the Filipinos themselves.

It is interesting to know, too, that that solution of the problem is one that would probably be welcomed by the great majority of the Filipinos themselves.

OBITUARY

March 26, 1929. Except for a number died at his home in Yellow Springs March 30, 1929. Except for a number of years spent in Colorado his entire life was passed in Yellow Springs where he was highly respected.

During the past winter Mr. Currie was very ill with erysipelas but recently he had recovered sufficiently to go about some. Thursday evening he was taken suddenly ill. Saturday he was worse and while Mrs. Currie had gone to the telephone to call the physician she heard Mr. Currie fall. When she went back upstairs she discovered that he had shot himself and had passed away instantly. Because of his illness friends feel that he was not responsible for his act.

When quite young he became a member of the Methodist Church and he was a faithful member of the Odd Fellows for about forty years.

Funeral services were held at the home April 2, Rev. Patton of the M. E. Church had charge of the services and was assisted by Rev. Dr. Orr of Pittsburgh and by the local Odd Fellows Lodge. Burial was made in Glen Forest Cemetery.

ASTORIA, Ore., April 8.—In 1850, 140 pounds of sugar cost \$55 and two pairs of women's shoes \$7, a sheet of paper, from the ledger of the Hudson Bay Company store at Fort Vancouver, and kept on file in the local customs house, shows. Other items retailed as follows: three side combs, \$1.50; two barrels of flour, \$3.00, and 108 pounds of coffee, \$27.

SEEK OLD FORTUNES Family Claims Share Of Millions

Mrs. M. Smalley, Mrs. V. N. McRolan, and below, Russell and Clarence Himmelrick.

By DAVID H. GLICKMAN
Staff Writer for Central Press and The Gazette

OAKLAND, Cal., April 8.—Heirs to \$850,000,000!

Sounds like a dream but it has a tangible thread of reality for members of one family here.

They believe themselves to be the direct descendants of two men whose names loomed large in financial annals of three countries a century and a half ago.

Through the tangled mazes of genealogical history, through many distortions of family names, these people, two brothers and three sisters, have traced their relationship to former financiers, long since dead, whose originally vast fortunes have multiplied to an astounding degree during the intervening years.

The family, which has already filed claims to the larger of the two estates involved in a St. Louis court, consists of Russell and Clarence Himmelrick; Mrs. M. Smalley and Mrs. V. N. McRolan, who reside in their home in the Eastbay region, here, and Mrs. M. V. Berry of Auburn, California.

Estate Near Billion

One estate, now valued by Russell Himmelrick at \$810,000,000, centers around the original fortune of John Emmerich of Amsterdam, Holland, and his nephew, Alexander Himmelrick, an emigrant in this country, who is believed to have been burned to death while fighting in the Civil War.

Emmerich, according to Himmelrick, was a partner of John Jacob Astor, one of the founders of New York, in the fur trading business which was the basis of the famous Astor fortune.

The other large estate involved is valued at \$40,000,000. It is that of William Jennings, an English bachelor who died intestate in 1799 at the age of 98 years.

This fortune, according to the findings of Mrs. S. R. W. Corey, Los Angeles (Cal.) genealogist, employed by the Himmelricks, was placed by the courts in control of distant relatives.

Jennings Estate Famous

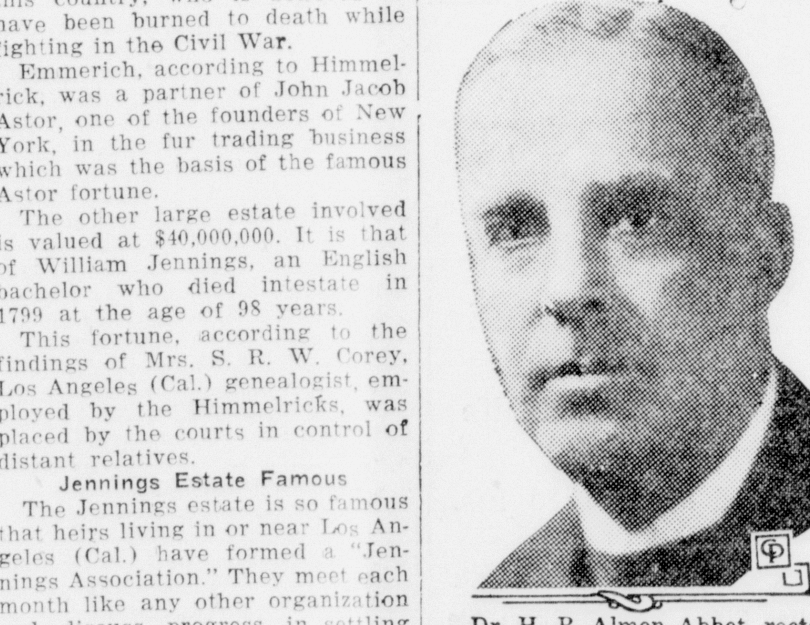

The Jennings estate is so famous that heirs living in or near Los Angeles (Cal.) have formed a "Jennings Association." They meet each month like any other organization and discuss progress in settling the estate. The Himmelricks have just recently become members of this association, since they learned of their relationship to Jennings.

The story of the Emmerich money has long been a tradition in the Himmelrick family, however. The father of the Oakland heirs is said to have spent many years in tracing down the genealogy and

based on his knowledge of the facts to his children.

Russell Himmelrick tells of having made many trips, of having written countless letters and of interviews with "old timers" who knew Alexander Himmelrick, the Civil War hero, in attempting to establish his family's claim to the fortune. His efforts are now being rewarded, for according to Russell Himmelrick, the original will of John Nicholas Emmerich, about whose fortune many legal documents exist in Holland, has been found in St. Louis. The will, he says, is being held in chancery to allow for filing of claims pending final settlement.

Leaves Rich Parish

Dr. H. P. Almon Abbot, rector of St. Chrysostom's church, Chicago, surrenders a position with salary and perquisites amounting to \$20,000 a year, to assume leadership of one of the poorest dioceses of the Episcopal church, that of Lexington, Ky., at an annual stipend of \$5,000.

Passed Up! By ROE FULKERSON

CHAPTER LVIII

The following day Andy made no reference to their conversation. He took up the routine of his work and Betty did the same. She was apathetic, doing her work mechanically.

At noon Andy called her into his office and said: "I'm taking the afternoon off to make some preparations for going away tomorrow night. If you feel as I do, you can do the same thing when your work is done."

"Thank you. I would like to go," answered Betty. In half an hour she left the office. For half an hour or more she sat on a bench in the park. Then she rose grudgingly, and started for George Harris' restaurant.

"George," she began. "I want you to get in your car and go for a ride with me."

"I'm sorry, Betty, but I'm very busy. I haven't time," he replied.

"George, please! You must take time. I must talk to you about something which affects your life and mine. I must talk to you today."

"Why, certainly, Betty," he replied. "Soon as I get my hat."

"Drive to some quiet place and stop," she commanded, when they were in the car. He drove to the river road and stopped within a few yards of where she and Andy had sat the night before.

"What is it, Betty?" he asked. "You can depend on me. Past actions indicate that."

"Yes, George, I know," answered Betty, a bit impatiently. "But, George, I am going to be absolutely frank with you."

"That is always best," he agreed. "Honesty is the best policy."

"George, you have been the best friend I ever had. I'm not forgetting all you did for me when my parents died. I shall never forget it. You advised me against dancing in public, but that did not stop you from stepping in and taking care of me when dancing got me into trouble. Then you gave me a position, and made it possible for me to go to business school."

"This business education gave me a chance to be Andy Adair's secretary. One or two things I have never told you, George. I never told you that the night I was hurt I was cuddled in Andy Adair's arms, and he had proposed to furnish a flat for me and carry one of the keys. I didn't consent, but I think that I would have had it not been for the accident. I was out of work, out of money, and I liked Andy better than anyone else."

"I said I liked him. I know now that I loved him. That was why I listened to his proposition. The only reason I am a good girl is because of that accident. At least, I think so. I have to be honest, George."

"There is another thing. The reason Andy never came to the hospital was because he had concussion of the brain and was not out for months. Then he went to the hospital and couldn't find me. Afterwards he went to my old room and couldn't locate me. He supposed I had left town."

"In his office he has been very nice. I have gone out to dinner and to dance with him twice. On one of these occasions he introduced me to his father and his mother. His mother invited me to their house for dinner."

"Since that time, George, Andy has proposed to me. He wants me to marry him. Don't speak until I am through!" George opened his mouth, but closed it again.

"I have never forgotten what you did for me, George. I tell you frankly I'm not in love with you. I wouldn't be fair to tell you otherwise. But I admire you more than anyone I know, except, possibly, Andy."

"I have known for years that you expected to marry me. I remember when you gave me the little typewriter. I gave you a note, all you wanted in the way of assurance. I know you have kept it. Now, George, I am ready to keep my obligation. I wish, if you don't mind, that you would marry me right away!"

"But Betty—"

"One thing more!" She interrupted him. "I will be a good wife to you, George. I want to be married right away. So I can get away from Andy's office. It isn't good for me to remain there after he has proposed. I don't want to take another position now."

"Betty, this is frightfully embarrassing!" said George. "I don't know what to say."

"Oh, I know what you mean!" Betty laughed hysterically. "You think I am horrid, for I have just proposed to you. But, George, things are different than they usually are. I know you love me."

"Er, yes, I love you, Betty, but not in the way you think it is an unusual love and—"

"Don't be silly, George. I know you are going to offer yourself as a sacrificial lamb! You shall do nothing of the kind! You are going to marry me, and do it right away!"

"But, Betty, what am I to do? I am engaged to marry Mary Roberts, my head waitress!"

Betty looked at him a moment and then she broke into hysterical screams of laughter. She grabbed George around the neck and kissed him half a dozen times before he could pull away.

"Oh, Betty, I'm so sorry about it all!" he cried. "Please don't get hysterical. I didn't know you cared for me that way. But you know me. I keep my obligations. Mary and I have been planning for some time to get married. We are going to open a branch and Mary will—"

"Oh, George!" laughed Betty. "You don't know how funny you look! Please don't be scared. I'm not going to abduct you!" She laughed again as George looked at her, lower jaw dropped. "I'm so glad I don't know what I'm doing!"

"Glad of it, and you in love with me?"

"I tried awfully hard not to tell you I was in love with Andy! You dear old goose, don't you see that I can marry Andy now, and that's what I wanted all the time? I would marry you because you had been so good to me. I thought you wanted me!" She grabbed and kissed him again.

"I think you better not do that, right here on the open road, in daylight," George looked around fearfully. "But I'm glad to know that I was mistaken. I had never thought of you in that way, Betty. I'm glad Andy is to marry you. He was once a bit wild, but you will be a good influence in his life. He will be a rich man some day, Betty. I congratulate you."

"I congratulate you, too, George!" She clapped her hands. "Oh, drive back to town quickly, George, or I will lose you again. Can I go in and congratulate Mary? She has always been jealous of me!"

"I don't think that Mary would harbor any such unworthy feelings as that, Betty," said George.

Who's Who in Timely Views

ATTENDANCE OF CABINET AT CONGRESSIONAL SESSIONS URGED

By CLYDE KELLY
Congressman From Pennsylvania

(Melville) Clyde Kelly was born at Bloomfield, O., Aug. 4, 1883. He was educated at Muskingum College, New Concord, O. From 1901 to 1903 he was city editor of the Daily News at Braddock, Pa., founding the Braddock Leader in the latter year. He purchased the Daily News in 1905 and the Evening Herald two years later. Since 1907 he has been publisher of the Daily News-Herald. A member of the Pennsylvania house of representatives from 1910 to 1913, he was elected to congress in 1913 and has been returned each term since except for the period from 1915 to 1917. He is a Republican and his home is in Pittsburgh, Pa.)

Now is the opportune time, with the new administration and the ardent discussion of plans for the organization of the government service for the adoption of a bill providing for attendance of cabinet officers at sessions of the senate and the house. Responsible government is what Herbert Hoover wants as president, and this proposal is in conformance with the idea. It would permit immediate information and immediate replies to inquiries with respect to the operation of the government.

In the last session of congress there were attacks made against the executive departments and members of the cabinet on the floors of both the senate and house. There was no opportunity

for those cabinet members attacked to meet these charges in the same forum in which the charges were made. They had to be content with giving out statements. Instead of this system, which is unfair to the heads of the government departments, it is proposed in the bill I shall offer to provide for attendance and participation of the cabinet at congressional sessions.

And in this connection, I call attention to the views of President Hoover as expressed in a letter to me in 1922 when I first made the proposal in a bill which I subsequently reintroduced in the seven-thirtieth congress.

Mr. Hoover made certain suggestions regarding section two of my bill, requiring the cabinet members to attend the opening of the session of the senate on Mondays and Thursdays and the opening of the sessions of the house on Tuesdays and Fridays.

He may be that in reintroducing the bill it may be feasible to omit this provision; that will be determined later; I am not certain yet as to the retention or elimination of that section, pending further study and ascertainment of views and facts on the subject.

CARS WILL STOP

NEW PHILADELPHIA, April 8.—For the first time in twenty-eight years there will be no inter-urban cars operating between Massillon and Uhrichsville after June 1, according to the decision made by the state public utilities commission which has granted N. O. R. and L. Company's petition to suppress plant electric cars with busses.

SPENDS YEARS IN PREPARING TO SEE BRIEF SUN ECLIPSE

BERLIN, April 8.—Years of painstaking preparations, an ocean voyage from Europe to the Far East, then days of travel across wild country to a remote native village in the mountains of Sumatra, and finally several more weeks of difficult, exacting, scientific labor—all for the purpose of observing a solar eclipse which will last only five minutes.

This is the task which is engaging the attention and time of Prof. E. Findlay Freundlich, astronomer of the Kaiser Wilhelm research institute of Potsdam. His preliminary preparations completed, Freundlich left Berlin in February at the head of an expedition of six persons, one of whom was his wife.

His goal was the village of Takineg, buried in the mountains of Sumatra, the only spot on earth from which the next obscuration of the sun—scheduled to take place on May 9—can be seen in its totality.

At Takineg Freundlich will set up a miniature astronomical laboratory. For this purpose he took with him two carloads of telescopes, and other astronomical equipment, as well as material with which to construct a special camera, a "dark" room and an electric-generating plant. Between the time of its arrival and May 9 the expedition expects to work from early morning until late at night, getting the station, camera and telescopes ready for eventual five minutes; weeks of toil which may go for nothing, if it happens to rain or even be only a little cloudy during those few, fleeting minutes.

Test of Einstein Theory

The main purpose of the expedition is to test one phase of the Einstein relativity theory, namely that which involves the supposed "bending" of light rays. At its apex the eclipse will completely hide the sun, only the corona being visible. It is then that the phenomenon will be "shot." Should this section of the relativity thesis be valid, the highly sensitized photographic plates may be expected to register light rays issuing from stars in the neighborhood of or hidden behind the sun, these rays reaching the earth in direct through curved lines. Failure to register these rays will not, it has been said, disprove the Einstein theory, although on the other hand success will go a long way toward establishing its validity.

Freundlich, long an intimate friend of Prof. Albert Einstein, has undertaken this mission, not as a champion or opponent of the latter's theory, but solely as a scientist who hopes to test by scientific methods, whatever the outcome might be an hypothesis advanced by a fellow scientist. While it is presumed that he would be pleased to be able to demonstrate the soundness of Einstein's views, Freundlich himself has refused to discuss this side of his investigation.

Equipment Rebuilt

Ever since the comparative failure of his attempts to photograph a similar eclipse on January 14, 1926, the Potsdam astronomer has been preparing for this next heavenly phenomenon. In 1926 the stars near the sun did not register distinctly enough on the photographic plates to be of any value, and this was believed due to imperfections in the equipment. Since then Freundlich has rebuilt all the equipment, strengthening the lenses and improving the telescopes. This task has occupied virtually all of his time for the last three years.

While Prof. Freundlich preserved a discreet silence, Mrs. Freundlich talked willingly and cheerfully about her part in the venture just before the partly left for the Far East. She explained that she was not going along in a professional capacity, "but simply to keep house, to look out for their food and comfort."

BRINGING UP FATHER

IT SURE IS A PUZZLE TO ME WHAT AILS DINTY. HE'S BEEN RITZIN' ALL HIS FRIENDS AND WHERE HE SPENDS HIS TIME IS A MYSTERY.

HELLO-YES, THIS IS MR. JIGGS HOME. JUST A MOMENT I'LL CALL HIM TO THE PHONE.

MR. MOORE'S PRIVATE SECRETARY WISHES TO SPEAK TO YOU DADDY.

OH, HE DOES. I'LL TELL HIM. WELL, I'LL TELL HIM MY SECRETARY SAYS I'M NOT IN.

AN' TELL HIM FER ME THAT IF DINTY WANTS TO TALK TO ME, HE'LL HAVE TO COME HERE.

4-8

By SIDNEY SMITH

The Theater

Clara Bow, Paramount's red-headed "It" girl, is back among the main-stem mazzdas with "The Wild Party," a new audible vehicle in which she exerts a large slice of oral "It." This is Clara's first all-talkie picture, a one-reel short subject, turned out to be a real nightmare during its making at Paramount's Long Island Studio, when an actor coughed and he was being chased over wastes of salt by a polar bear and lost his false teeth. All hands stopped to search for the molar, but they were never found and the actor had to complete the picture without them.

Clara is at the Rialto and not a block up the street, at the Embassy, Metro-Goldwyn-Mayer is showing "The Trial of Mary Dugan," at \$2 a shot. Diagonally across Times Square "The Letter" is still doing record business with Jeanne Eagles in the lead.

Who wouldn't wear such a gorgeous white winter outfit, even in sunny California, if one looked as well in it as does Jeanette Rogers?

Twenty Years '09- Ago -'29

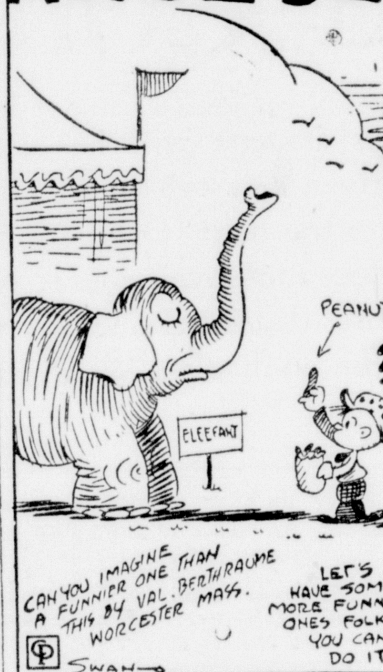

The corner stone of the new First United Presbyterian Church was laid Wednesday afternoon between showers.

The Grand Hotel has been leased by H. E. Schmidt, owner, to Lyman Collins who will conduct the hotel as soon as repairs are completed.

Dr. S. D. Fess, president of Antioch College, Yellow Springs, has been tendered the presidency of Otterbein University at Westerville.

A cyclone of the "twister variety" swooped down on the farm of David S. Harner, Fairground Road, Tuesday afternoon and wrecked a barn, killing a number of cattle and hogs.

NONSENSE

Poems that Live

"WHERE RUNS THE RIVER"

WHERE runs the river? Who can say
Who hath not followed all the way
By alders green and sedges gray
And blossoms blue?

Where runs the river? Hill and wood
Curve round to hem the eager flood;
It cannot straightly as it would
Its path pursue.

Yet this we know: O'er what so plains
Or rocks or waterfalls it strains,
At last the vast stream attains;
And I, and you.

—Francis William Bourdillon

BIG DOGS AN' FIFTEEN PER L'L—

The Theater

Clara Bow, Paramount's red-headed "It" girl, is back among the main-stem mazdas with "The Wild Party," a new audible vehicle in which she exerts a large slice of oral "It."

This is Clara's first all-talkie and was her first offering on Broadway since "Three Weeks Ends," which was made before she started making talkies. The new picture is said to give her one of the best roles of her career. The scene is laid in a girls' college where many beautiful hip-slopping jazz-mad maidens carry it along at astonishing speed. Frederic March is in the supporting cast.

Clara is at the Rialto and not a block up the street, at the Embassy, Metro-Goldwyn-Mayer is showing "The Trial of Mary Dugan," at \$2 a shot. Diagonally across Times Square "The Letter" is still doing record business with Jeanne Eagles in the lead.

Who wouldn't wear such a gorgeous white winter outfit, even in sunny California, if one looked as well in it as does Jean Arthur?

Twenty Years '09- Ago -'29

The corner stone of the new First United Presbyterian Church was laid Wednesday afternoon between showers.

The Grand Hotel has been leased by H. E. Schmidt, owner, to Lyman Collins who will conduct the hostelry as soon as repairs are completed.

Dr. S. D. Fess, president of Antioch College, Yellow Springs, has been tendered the presidency of Otterbein University at Westerville.

A cyclone of the "twister variety" swooped down on the farm of David S. Harner, Fairground Road, Tuesday afternoon and wrecked a barn, killing a number of cattle and hogs.

MT. VERNON PUPIL
WINS ACCOUNTING
MEDAL IN CONTEST

CLEVELAND, April 8.—First prize of \$100 and a gold medal in the state wide accounting contest sponsored by the Ohio-Pennsylvania Joint Stock Land Bank of Cleveland and the Ohio Department of Education, was won by Clifford Black, agriculture student in the Mt. Vernon High School, according to results released today.

Second prize of \$75 and a silver medal was awarded Herman Kooze of Germantown, Kennel Fourman of Arcanum placed third and Melvin Wilkinson of Hilliards won fourth.

Black won first place in a field of over 500 contestants, all students of vocational agriculture in 196 high schools of the state. His account book included full accounts for one year on his father's farm and was without a single error in addition and subtraction, classification of accounts, or bookkeeping methods, according to specialists in the Rural Economic department of Ohio State University where the books were judged.

"We discovered that farmers that keep books pay interest and taxes on time," said L. G. Teber, vice president of the Ohio-Pennsylvania Joint Stock Land Bank. "Consequently our bank decided to sponsor a farm accounting contest for boys in vocational agriculture. In some sections we find that interest aroused by the boys in farm accounting has led their parents to hold evening classes in bookkeeping methods and has improved not only the knowledge of bookkeeping but the cash income of many farmers in Ohio."

Other winners in the contest were: Boyd Schwarz of Green Township, Wayne County; David Winegar of Greenfield; Robert Sours of Bucyrus Twp., Crawford County; Glenn Longenecker of Greenville; Herman Miller of Jefferson Twp., Franklin County; Marshall Ollam, of Jackson Twp., Franklin County; Lewis Weyand, of Albany; Gilbert Noble of Carrollton; Ralph Bateman of Jackson Twp., Darke County; William McKensie of New Vienna, Ralph Bender of Waldo; Bennett Geiser, of Sugar Creek Twp., Wayne County; Dale Robinson of Carey; Walter Myers of Washington Twp., Hancock County, and Clarence Ditterly of Monroeville.

FINED AFTER AUTO
HITS FRONT PORCH

Arrested by Patrolmen Charles Thompson and J. E. Craig after the sedan he was driving had crashed into the front porch at the residence of Oscar Harris, colored, E. Main St., breaking off a post and causing other damage to the stone foundation, John Riley, 52, pleaded guilty to intoxication and was fined \$40 and costs by Mayor Karl R. Babb Sunday afternoon.

The mishap occurred Saturday night when Riley tried to turn at a street intersection but failed to negotiate the curve, the car crashing over the curb and on to the Harris property. Both occupants of the sedan escaped injury but the car was damaged.

MASONS INSPECTED
AT YELLOW SPRINGS

The sixty first annual inspection of Yellow Springs Lodge, No. 421, F. and A. M., held Friday night in the new Bryan High School auditorium at Yellow Springs, was conducted by Harry A. Metzger, Wilmington district lecturer of the Eighth Masonic District.

Work in the Entered Apprentice degree was a feature of the evening. Past Masters from various lodges and Masons from Xenia, Springfield, South Charleston, New Carlisle, Cedarville, Wilmington, Dayton and Urbana attended.

Stewart L. Tatum, Springfield attorney, was the principal speaker. Covers were laid for approximately 150 persons at a banquet served in the basement of the Presbyterian Church and prepared by members of the Eastern Star.

KEEPING WOLF FROM DOOR
SPRINGFIELD, Ill., April 8.—"Keeping the wolf from the door" really is quite a problem for Loren Grubb, state game warden. He has five wolf cubs, which he found in a den near Chatham south of here. The parents are at large and farmers are on the lookout for them. The cubs have the appearance of police dogs.

HARD WATER PLUS MELO MAKES SOFT WATER

Wash your dishes
with Melo

MELO softens hard water and makes it a wonderful cleaner, with or without soap. A tablespoonful in the dishpan cuts grease, saves hands and makes the soap much more effective.

No scum forms. Scum is the result of the hardness in hard water combining with soap. But scum never forms in soft water. Scum never forms in water softened with Melo. Get it at your grocer's.

Pulchritude Prominent Feature of Royal Bridal Party

It isn't very often that one sees such a consistently good-looking wedding party as that which joined Norway and Sweden recently. In the center (left) is Crown Prince Olaf of Norway with his bride, the Princess Martha of Sweden, both notoriously attractive. Standing next to him is the Duke of York, who was best man. The bevy of beautiful girls surrounding the bridal couple were attendants to the Princess and the cute kiddies (seated) who acted as train-bearers, are Princess Fleming and Prince George of Denmark.

ANDREW FRAZER FIRST, LAMAR
BENNETT SECOND IN CONTEST

One first place and one second place went to Xenia Central High School students in the Class B finals of the first annual Ohio High School Scholarship Contest at Columbus Saturday.

Andrew Frazer won the Class B first honors in Latin I while Lamar Bennett took second place in American History.

Some 360 star pupils who qualified in previous rounds culminating in district contests a week ago participated in the finals. All sections of the state were represented.

The contest was conducted under the auspices of Ohio State University and the State Department of Education with the co-operation of the five state universities and colleges.

Besides the honor, thirty scholarships go to the winners in the examinations covering the senior subjects and certificates to the others.

BRINGS FAMILY AND
GETS MINIMUM FINE

BOSTON, April 8.—Joe Marcia, charged with peddling without a license, appeared in court, bringing his wife and six children with him for moral support.

"What's this, a parade?" inquired Judge Dowd.

"They're all mine," returned the defendant, humbly.

After surveying the Marcia brood, the judge imposed the minimum fine—\$5.

NO CLUBS. NO BRIDGE

Mrs. Walter Brown, Wife Of Postmaster-General,
Likes Motoring, Sailing, Music

By BONITA WITT
Staff Writer for Central Press and The Gazette

WASHINGTON, April 8.—Society holds little lure for Mrs. Walter F. Brown, wife of the new postmaster-general. Slight in build and rather quiet, she prefers browsing about the countryside with her husband in his infrequent hours of leisure to attending teas and luncheons. Afternoon bridges fail to interest her since she never has learned to play the game.

Motoring is her chief recreation in Washington. She likes to visit the nearby historical cities, talk with old settlers and listen to their stories of Civil War days. Winchester, Va., scene of the annual apple festival, is one of her favorite haunts.

Mrs. Brown and the postmaster-general are frequently seen at the symphony concerts and musicales since most of the Washington programs begin late in the afternoon, after the departmental offices are closed and the men are free to attend.

When the Browns are at their home in Toledo, O., during the summer they pass much of their time on the water. Before her marriage of Mrs. Brown, who was Miss Katherine Hafer of Cincinnati, O., grew to become an enthusiastic lover of the water during her vacations which usually were spent at Middle Bass island.

MRS. WALTER F. BROWN

YOU'RE BETTER MAN
THAN I SAID MYRON

CANTON, April 8.—Orin Herrick and Myron T. Herrick were "buddies."

Orin, 59-year-old son of Ohio's soil, has a large family. There are six sons, thirty-three grandchildren, thirty-five great grandchildren, and one great great grandchild.

Myron T. Herrick was wealthy. He owned a fine estate. He had influential friends in many nations. He was known and loved by thousands, both in America and France, whose people he served as American ambassador.

"You're a far bigger man than I am, Orin," Myron once told his brother. "Just look at the family you have reared! You have accomplished far more in the world than I."

Myron once told Orin he was going to leave farming to him—that he himself was going to be a "big man some day."

Orin stayed to work his farm near Canton. Myron achieved fame, rising to the presidency of a large bank, to the governorship of his own state and finally to serve his country as ambassador to France.

Orin doubts whether he was the greater man.

INFANT DIES

The infant son of City Solicitor and Mrs. J. A. Finney, died Saturday at the Miami Valley Hospital. The baby was born Friday and was frail from birth.

Brief funeral services were held Monday morning at the Nagley Funeral Parlor, with burial in Woodland Cemetery. The child is survived by his parents, one sister Jane and two brothers, Joseph Jr., and Charles.

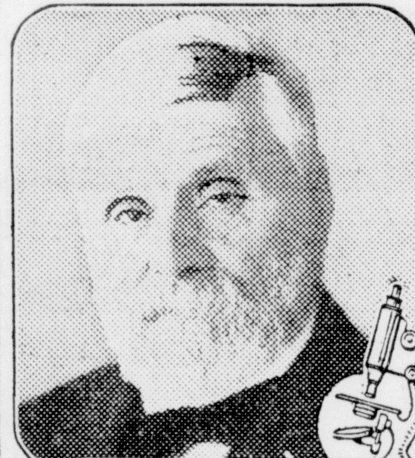

What Dr. Caldwell Learned
in 47 Years Practice

Dr. Caldwell watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time regardless of how much one tries to avoid it. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It can not harm the most delicate system and is not a habit forming preparation. Syrup Pepsin is pleasant-tasting, and youngsters love it. It does not gripe. Thousands of mothers have written us to that effect.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for human beings to put into their system. In a practice of 47 years he never saw any reason for their use when a medicine like Syrup Pepsin will empty the bowels just as promptly, more cleanly and gently without gripping and harm to the system.

Keep free from constipation! It robs your strength, hardens your arteries and brings on premature old age. Do not let a day go by without a bowel movement. Do not sit and hope, but go to a druggist and get one of the generous bottles of Dr. Caldwell's Syrup Pepsin. Take the proper dose that night and by morning you will feel like a different person. Use for yourself and members of the family in constipation, biliousness, sour and crampy stomach, bad breath, no appetite, headaches, and to break up fevers and colds.

—Adv.
